Please end the requirement that I declare \$0.0 every year on my US tax return. I am a US citizen and Vietnam war veteran living for many years in Australia. I earn no US income. I cannot go thru the very expensive and totally useless exercise of declaring no US income for 44 years. As a result of this law, I feel I cannot ever even visit the USA again and see family members despite the fact I once served our nation in uniform in war. Please, end it now.
