General Comment

there is zero best services from the cdc. the programs are not effective, but are intended to hurt and destroy the people of the usa and its economy. this agency wants to dictate and overrule the nuremberg code of informed consent and harm th e people of this country. this agency is totally out of control and is overfunded. it needs to have all funds taken from it and be closed down and then investigate for criminalconduct against the people of this country. the work of this agency is worth zero dollars. they are otu of control at this agency. shut it down please and protect us all from this horrific agency. it is not science at this agency .i it is fat cat bureaucracy.they dont acknowledge the public comments on how bad they are they just delete them and lie to the people
