I consider this an unnecessary invasion of my privacy! I was asked to move overseas by my US company and now face the hardship of Fatca and Fbar.

I am not a rich guy or corporation who is hiding large sums of money in an overseas account! It is time to abolish the ridiculous and expensive tax requirements of citizens who earn way under the Foreign Earned Income level.

I moved overseas on behalf of a US entity and now suffer the inconvenience of Fatca and Fbar!

Abolish Fbar and citizen based taxation. I already pay taxes in my host country!
