U.S. IMPORTERS' QUESTIONNAIRE

LARGE TOP MOUNT COMBINATION REFRIGERATOR-FREEZERS FROM THAILAND

This questionnaire must be received by the Commission by <u>June 13, 2024</u>
See last page for instructions regarding how to file this questionnaire.

The information called for in this questionnaire is for use by the United States International Trade Commission in connection with its antidumping investigation concerning large top mount combination refrigerator-freezers ("top mount refrigerators") from Thailand (inv. No. 731-TA-1696 (Preliminary)). The information requested in the questionnaire is requested under the authority of the Tariff Act of 1930, title VII. This report is mandatory and failure to reply as directed can result in a subpoena or other order to compel the submission of records or information in your firm's possession (19 U.S.C. § 1333(a)).

PART I.—GENERAL INFORMATION

Background.--This proceeding was instituted in response to a petition filed on May 30, 2024, by Electrolux Consumer Products, Inc., Charlotte, North Carolina. Antidumping duties may be assessed on the subject imports as a result of these proceedings if the Commission makes an affirmative determination of injury, threat, or material retardation, and if the U.S. Department of Commerce ("Commerce") makes an affirmative determination of dumping. Pertinent information to this proceeding is available at:

Questionnaires: https://usitc.gov/reports/active import injury questionnaires. Other case information: https://ids.usitc.gov/case/8202/investigation/8579

<u>Top mount refrigerators</u> covered by this questionnaire are large top mount combination refrigerator-freezers with a refrigerated volume of at least 15.6 cubic feet or 442 liters. For the purposes of this petition, the term "top mount refrigerators" consists of freestanding or built-in cabinets that have an integral source of refrigeration using compression technology, with all of the following characteristics:

- The cabinet contains at least two interior storage compartments accessible through one or more separate external doors or drawers or a combination thereof;
- The lower-most interior storage compartment(s) that is accessible through an external
 door or drawer is a refrigerator or fresh food compartment, but is not a freezer
 compartment, however the existence of an interior sub-compartment for ice-making in
 the lower-most storage compartment does not render the lower-most storage
 compartment a freezer compartment; and
- There is a freezer compartment that is mounted above the lower-most interior storage compartment(s).

For the purposes of the investigation, a refrigerator compartment is capable of storing food at temperatures above 32 degrees F (0 degrees C) and a freezer compartment is capable of storing food at temperatures at or below 32 degrees F (0 degrees C).

The products subject to this investigationare currently imported under statistical reporting number 8418.10.0075 of the Harmonized Tariff Schedule of the United States (HTSUS). Products subject to this investigationmay also be reported under HTSUS statistical reporting numbers 8418.21.0090, 8418.40.0000, 8418.99.4000, 8418.99.8050, and 8418.99.8060. The HTSUS statistical reporting numbers are provided for convenience and customs purposes, but the written description of the merchandise subject to this scope is dispositive.

<u>Importer</u>.--Any person or firm engaged, either directly or through a parent company or subsidiary, in importing top mount refrigerators (as defined above) into the United States from a foreign manufacturer or through its selling agent.

Reporting of information.--If information is not readily available from your records, provide carefully prepared estimates. If your firm is completing more than one questionnaire (i.e., a producer, importer, and/or purchaser questionnaire), you need not respond to duplicated questions.

<u>Confidentiality</u>.--The commercial and financial data furnished in response to this questionnaire that reveal the individual operations of your firm will be treated as confidential by the Commission to the extent that such data are not otherwise available to the public and will not be disclosed except as may be required by law (see 19 U.S.C. § 1677f). Such confidential information will not be published in a manner that will reveal the individual operations of your firm; however, general characterizations of numerical business proprietary information (such as discussion of trends) will be treated as confidential business information only at the request of the submitter for good cause shown.

<u>Verification</u>.--The information submitted in this questionnaire is subject to audit and verification by the Commission. To facilitate possible verification of data, please keep all files, worksheets, and supporting documents used in the preparation of the questionnaire response. Please also retain a copy of the final document that you submit.

Release of information.--The information provided by your firm in response to this questionnaire, as well as any other business proprietary information submitted by your firm to the Commission in connection with this proceeding, may become subject to, and released under, the administrative protective order provisions of the Tariff Act of 1930 (19 U.S.C. § 1677f) and section 207.7 of the Commission's Rules of Practice and Procedure (19 CFR § 207.7). This means that certain lawyers and other authorized individuals may temporarily be given access to the information for use in connection with this proceeding or other import-injury proceedings conducted by the Commission on the same or similar merchandise; those individuals would be subject to severe penalties if the information were divulged to unauthorized individuals.

<u>Valid number error messages.</u>—If you are completing this form in a country that uses periods (".") to delineate multiples of 1000 (e.g., one million would appear as \$1.000.000 rather than \$1,000,000), you may be unable to enter in numbers greater than 999 in numeric form fields. The solution to this data entry issue is to temporarily change your operating system's number formatting to be consistent with the U.S. number formatting system while you complete this form. Detailed instructions on how to resolve this issue is provided at the end of this questionnaire and is available upon request from Stamen Borisson (202-205-3125, stamen.borisson@usitc.gov).

<u>D-GRIDS tool.</u>--The Commission has a tool that firms can use to move data from their own MS Excel compilation files into self-contained data tables within this MS Word questionnaire, thereby reducing the amount of cell-by-cell data entry that would be required to complete this form. This tool is a macroenabled MS Excel file available for download from the Commission's generic questionnaires webpage (https://www.usitc.gov/trade_remedy/question.htm) called the "D-GRIDs tool." Use of this tool to help your firm complete this questionnaire is *optional*. Firms opting to use the D-GRIDs tool to populate their data into this questionnaire will need the D-GRIDs specification sheet PDF file specific to this proceeding (available on the case page which is linked under the "Background" above) which includes the necessary references relating to this questionnaire, as well as the macro-enable MS Excel D-GRIDs tool itself from the generic questionnaires page. More detailed instructions on how to use the D-GRIDs tool are available within the D-GRIDs tool itself.

<u>Certified "no" questionnaire submission.</u>--If your firm did not import top mount refrigerators (as defined above) and are submitting the signed first page as requested, please also provide any information relating to any imports (i.e., of product other than top-mount refrigerators) that your firm may have imported under the primary HTS number for top-mount refrigerators (i.e., 8418.10.0075) but are nonetheless products outside of consideration in this investigation (including the specific products being imported and the associated volume of those out-of-scope imports). Additionally, if your firm reported withdrawals into consumption from a U.S. foreign trade zone of U.S.-produced top-mount

refrigerators or other types of refrigerators from upstream out-of-scope parts that had been admitted into your zone as parts, but were withdrawn into consumption classified as the finished good classification (i.e., 8418.10.0075) for Customs purposes, please either submit: (a) a full U.S. producers' questionnaire response in the case of domestic production of top-mount refrigerators; (b) information relating with the volumes of withdrawals into consumption under the primary HTS in the case of production of other types of refrigerators; or, (c) both if your firm produced both types of refrigerators in your FTZ.

I-1. Reporting requirements.--Please report below the actual number of hours required and the cost to your firm of completing this questionnaire for use by the Office of Management and Budget.

Hours	Dollars

Public reporting burden for this questionnaire is estimated to average 40 hours per response, including the time for reviewing instructions, gathering data, and completing and reviewing the questionnaire.

We welcome comments regarding the accuracy of this burden estimate, suggestions for reducing the burden, and any suggestions for improving this questionnaire. Please provide such comments to the Office of Investigations, import injury@usitc.gov.

I-2a.	Establishments covered.	Provide the	name and	address of	establishment(s)	covered	by this
	questionnaire.						

"Establishment" Each facility of a firm involved in the importation of top mount refrigerators
including auxiliary facilities operated in conjunction with (whether or not physically separate
from) such facilities.

II-2a. <u>Changes in operations.</u>—Has your firm experienced any changes in ownership or in the nature of its importing operations for top mount refrigerators since January 1, 2021?

No	Yes	If yes, supply details as to the time, nature, and significance of such changes and describe reasons for the changes, including any underlying assumptions used.

II-2b. COVID-19 pandemic.—Has the COVID-19 pandemic or have any government actions taken to contain the spread of the COVID-19 virus resulted in changes in your firm's supply chain arrangements, importation, employment, and shipments relating to top mount refrigerators? In your response, please discuss the duration and timing of any such changes as they relate to your firm's operations.

No	Yes	If yes, describe these changes including the impact over time on the (a) supply chain, (b) importation and shipments, and (c) employment with respect to top mount refrigerators.

Definitions

"Imports" – Those products identified for Customs purposes as imports for consumption for which your firm was the importer of record (i.e., was responsible for paying any import duty).

"Import quantities" —Quantities reported should be net of returns.

"Import values"—Values reported should be landed, duty-paid values at the U.S. port of entry, including ocean freight and insurance costs, brokerage charges, and import duties (i.e., all charges except inland freight in the United States).

"Commercial U.S. shipments"— Shipments made within the United States as a result of an arm's length commercial transaction in the ordinary course of business. Report net values (i.e., gross sales values less all discounts, allowances, rebates, prepaid freight, and the value of returned goods) in U.S. dollars, f.o.b. your point of shipment.

"Internal consumption, including for retail use" — Product consumed internally by your firm, which includes merchandise that your firm shipped to your own firm's retail establishments (i.e., shipped to either a bricks-and-mortar store, directly to an end use customer or household via your own firm's online sales platforms, or to an online order fulfillment center). Such transactions are to be valued at fair market value at the time the product is shipped and not the retail sale value in the case of your firm owning and operating its own retail establishments, selling directly to an individual end use customer or household, or using a third-party fulfillment center to fulfill retail level sales.

"Transfers to related firms" – Shipments made to related firms. Such transactions are valued at fair market value.

"Export shipments"— Shipments to destinations outside the United States, including shipments to related firms.

"Inventories" -- Finished goods inventory, not raw materials or work in progress.

Note: As requested in Part I of this questionnaire, please keep all supporting documents/records used in the preparation of the trade data, as Commission staff may contact your firm regarding questions on the trade data. The Commission may also request that your company submit copies of the supporting documents/records (such as production and sales schedules, inventory records, etc.) used to compile these data.

II-5a. <u>U.S. imports from Thailand</u>.—Report your firm's imports and your firm's shipments and inventories of top mount refrigerators imported from Thailand by your firm during the specified periods.

PRICE DATA

- III-2. This question requests quarterly quantity and value data for your firm's commercial shipments to unrelated U.S. customers since January 1, 2021 of the following products your firm imported from Thailand:
 - **Product 1.**—Top mount refrigerator, total capacity of 17.5-18.3 cubic feet; stainless steel; no internal icemaker; Energy-star rated.
 - **Product 2.--** Top mount refrigerator, total capacity of 17.5-18.3 cubic feet; stainless steel; no internal icemaker; non-Energy-star rated.
 - **Product 3.--** Top mount refrigerator, total capacity of 17.5-18.3 cubic feet; monochrome (white or black); no internal icemaker; Energy-star rated.
 - **Product 4.--** Top mount refrigerator, total capacity of 17.5-18.3 cubic feet; monochrome (white or black); no internal icemaker; non-Energy-star rated.

Report data for all SKUs/model numbers/product codes that fall under each above definition. <u>Do not report retail sales to consumers.</u>

If the DOE rated capacity for a particular SKU/model number/product code changed during the period, classify the SKU/model number/product code consistent with the capacity being advertised at the time of sale. Classify a large top mount combination refrigerator-freezer as Energy Star if it was being advertised as Energy Star at the time of sale.

Please report values as follows:

Total dollar values should be f.o.b. port and should not include U.S.-inland transportation costs. Report the U.S. f.o.b. sales value and quantity on an invoice basis (i.e., the quantity-weighted total of the prices indicated on the invoice for the product in question), and net of <u>direct and indirect discounts</u> (i.e., all discounts, incentives, allowances, rebates, promotional amount, cash incentives for retail sales personnel (SPIFFs) or other sales support, and/or any other form of payment or allowance to a retailer). Exclude any additional equipment provided that may be included in the invoice price.

<u>Direct discounts</u> are tied to sales of the specific large top mount combination refrigerator-freezer(s) for which pricing data are requested, whether or not such discounts are given on the sales price to the customer or are in the form of a post-sale discount, rebate or other type of sales support after the customer resells the product to its customer.

Indirect discounts, while not specifically tied to the products in question, are properly allocable to sales of such products because sales of such products were part of the basis on which the discount, incentive, allowance, etc. was given. In each case, the basis for the allocation of these allocated discounts, rebates, etc. should be the value of sales of the pricing product at issue as a percentage of the value of all the products sold by your firm to a customer that also qualified for the same discount, rebate, etc. Thus, for example, the value of a discount given to a customer because it reached an annual large top mount combination refrigerator-freezer sales target would be allocated over large top mount combination refrigerator-freezer sales to that customer.

Note: Items such as discounts, allowances, and rebates, which are included as adjustments to revenue, should be consistent with the company's accounting procedures; i.e., they should not include items that are treated separately as costs.

III-2a.	During January 2021-March 2024, did your firm import from Thailand and sell to unrelated U. customers any of the above listed products (or any products that were competitive with these products)?					
		YesPlease complete the following pricing data table as appropriate.				
		NoSkip to question III-3.				

III-2b. <u>Price data</u>.--Report below the quarterly price data¹ for pricing products² imported from Thailand and sold by your firm.

¹ LDP value (i.e., landed duty-paid values): Values reported should be landed, duty-paid values at the U.S. port of entry, including ocean freight and insurance costs, brokerage charges, and import duties (i.e., all charges except inland freight in the United States). See "Import values" definition in Part II (Trade and Related Information – Definitions).

² Pricing product definitions are provided on the first page of Part III.

i.

III-3b.	Purchase cost data checklistPlease check that the purchase cost data in question III-3(a) h	ave
	peen correctly reported.	

Are the purchase cost data reported above:	√ if Yes
In actual dollars (not \$1,000) and units?	
Valued at landed duty-paid import value (i.e., value at the U.S. border after clearing Customs)?	
Reported only for imports used for internal consumption or for your firm's retail sale?	
Less than or equal to the quantities and values reported in part II for imports in each period?	
Explanation(s) for any boxes not checked:	

Complete the following questions only if your firm reported data on the previous page, otherwise skip to question III-4.

The following questions ask about the costs/benefits (not included in the LDP values reported above) that factor into your firm's decision to import top mount refrigerator rather than purchase from a U.S. producer or importer of top mount refrigerator.

III-3c. Additional costs for your firm's imports of top mount refrigerator for your firm's retail sale.—

i.	Did your firm incur any additional costs by importing top mount refrigerator rather than purchasing from a U.S. producer or importer (e.g., logistical or supply chain management costs, warehousing/inventory carrying costs, insurance or other risk management fees, demurrage fees, indirect and overseas costs)?
	☐ No ☐ Yes—Please answer parts ii, iii, and iv.
ii.	Please provide an estimate of the total additional cost incurred (as a percentage compared to LDP value) when importing top mount refrigerator rather than purchasing from a U.S. producer or importer. (Report only the portion that is related to your firm's importing activities, either directly or indirectly, and not already included in the LDP value. Do NOT include any costs that also would be incurred if your firm purchased the product from a U.S. producer or importer.)

III-3c.	Additional costs for	your firm's imports o	f top mount refri	gerator for	your firm's retail sale.—
	Continued	•	-	_	-

iii. Please identify and explain the specific additional costs incurred by your firm and estimate each cost (in percent) compared to the cost of importing. (Only report costs and the portion of each cost that was related to your firm's importing activities for top mount refrigerator, either directly or indirectly, and that are not already included in the LDP value. Do NOT report costs that your firm would incur when purchasing top mount refrigerator from a U.S. producer or importer.)

	U.	S. importers	U.S. producers	Neither U.S. importers nor U.S. producers	

importer or U.S. producer?

Briefly identify the benefits of importing top mount refrigerator instead of purchasing top mount refrigerators from a U.S. importer or from a U.S. producer.
Is it your firm's experience that the top mount refrigerators your firm imported from Thailand are priced lower than they would be if your firm purchased from a U.S.

Imports are priced lower when	No	Yes (If yes to either, please answer parts iii and iv.)
Not including the additional costs above		
Including the additional costs above		

iii. Please estimate your firm's savings by importing top mount refrigerators instead of purchasing from a U.S. producer or U.S. importer since January 1, 2021 (as a percent of the purchase price from the U.S. importer or U.S. producer). For your estimate, compare the price of purchasing from a U.S. importer or U.S. producer to the cost of direct imports (including the additional costs described above in III-3ciii).

Factors	Estimated savings (percent of purchase price from U.S. importer/producer)	
U.S. producer	%	
U.S. importer	%	

iv. What methods or experience did you base the estimates in III-3eiii (i.e. based on previous transactions with U.S. producers and/or U.S. importers, market research, etc.) Check all that apply.

III-9. <u>Lead times.--</u> What share of your firm's sales of its top mount refrigerators imported from Thailand was from inventory and produced to order, and what was the typical lead time between a customer's order and the date of delivery for your firm's sales of its imported top mount refrigerators?

Source	Share of 2023 sales	Lead time (Average number of days)
From your firm's U.S. inventory	%	
From foreign manufacturers' inventory	%	
Produced to order	%	
Total (should sum to 100.0%)	0.0 %	

III-10.	Shipping information. —

(a)	Your firm Purchaser (check one)
(b)	When your firm sells top mount refrigerators imported from Thailand, from where is it shipped? Point of importation Storage facility (check one)
(c)	Indicate the approximate percentage of your firm's sales of top mount refrigerators

(c) Indicate the approximate percentage of your firm's sales of top mount refrigerators imported from Thailand that are delivered the following distances from your firm's U.S. point of shipment.

Distance from your firm's U.S. point of shipment	Share
Within 100 miles	%
101 to 1,000 miles	%
Over 1,000 miles	%
Total (should sum to 100.0%)	0.0 %

III-11. <u>Geographical shipments.</u>--In which U.S. geographic market area(s) has your firm sold top mount refrigerators imported from subject countries since January 1, 2021 (check all that apply)?

Geographic area				
Northeast.–CT, ME, MA, NH, NJ, NY, PA, RI, and VT.				
MidwestIL, IN, IA, KS, MI, MN, MO, NE, ND, OH, SD, and WI.				
Southeast.—AL, DE, DC, FL, GA, KY, MD, MS, NC, SC, TN, VA, and WV.				
Central Southwest.—AR, LA, OK, and TX.				
MountainsAZ, CO, ID, MT, NV, NM, UT, and WY.				
Pacific Coast.–CA, OR, and WA.				
Other.—All other markets in the United States not previously listed, including AK, HI, PR, and VI.				

III-12.	Inland transpo	ortation costs.—What is the approximate percentage of the cost of top mount
	refrigerators in	mported from Thailand that is accounted for by U.S. inland transportation
	costs?	percent.

III-21. <u>Interchangeability</u>.—How often is top mount refrigerators produced in the United States and in other countries interchangeable (i.e., can they physically be used in the same applications)?

Please indicate A, F, S, N, or 0 in the table below:

A = the products from a specified country-pair are *always* interchangeable

F = the products are *frequently* interchangeable

S = the products are *sometimes* interchangeable

N = the products are *never* interchangeable

0 = no familiarity with products from a specified country-pair

Country-pair	Thailand	Other countries
United States		
Thailand		

For any country-pair producing top mount refrigerators that is *sometimes* or *never* interchangeable, identify the country-pair and explain the factors that limit or preclude the interchangeable use of top mount refrigerators produced in the countries:

III-22. **Factors other than price.**—How often are differences other than price (e.g., quality, availability, transportation network, product range, technical support, *etc.*) between top mount refrigerators produced in the United States and in other countries a significant factor in your firm's sales of the products?

Please indicate A, F, S, N, or 0 in the table below:

A = such differences are *always* significant

F = such differences are *frequently* significant

S = such differences are *sometimes* significant

N = such differences are *never* significant

0 = *no familiarity* with products from a specified country-pair

Country-pair	Thailand	Other countries
United States		
Thailand		

For any country-pair for which factors other than price are *always* or *frequently* a significant factor in your firm's sales of top mount refrigerators, identify the country-pair and the relevant factors other than price, and report the advantages or disadvantages imparted by such factors:

III-23. <u>Customer identification</u>.--List the names and contact information for your firm's 10 largest U.S. customers for top mount refrigerators since January 1, 2021. Indicate the share of the quantity of your firm's U.S. shipments of top mount refrigerators that each of these customers accounted for in 2023.

III-24.	Other explanationsIf your firm would like to further explain a response to a question in Part III for which a narrative response box was not provided, please note the question number and the explanation in the space provided below. Please also use this space to highlight any issues your firm had in providing the data in this section.

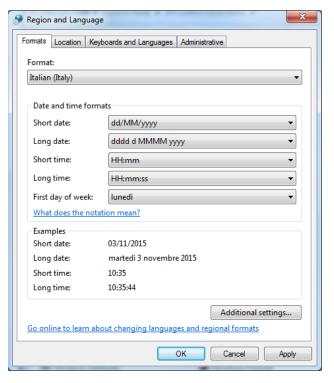

Correcting valid number error messages.--If you are completing this questionnaire in a country that uses periods (".") to delineate multiples of 1000 (i.e., one million would appear as \$1.000.000 instead of as \$1,000,000), you may be unable to enter in numbers greater than 999 in the numeric form fields. This issue stems from your computer's number formatting setting (i.e., not the MS Word document itself, but the computer from which you are opening up the document). In the United States commas (",") delineate multiples of 1000 and periods (".") delineate fractions less than one. Many EU and other countries use the reverse where multiples of 1000 are delineated with periods (".") and fractions less than one are delineated with commas (","). The U.S. International Trade Commission's questionnaires are set-up in the United States with the U.S. number formatting. When this formatting interacts with a computer set to EU or other country number formatting, we believe this may cause this issue.

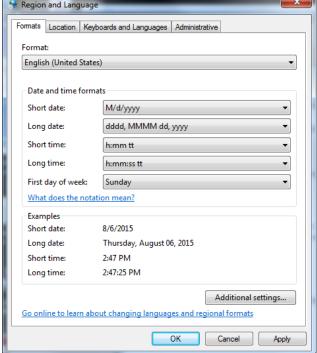

The solution to this data entry issue is to temporarily change your operating system's number formatting to be consistent with the U.S. number formatting system while you complete the questionnaire.

To temporarily change your computer's number settings to U.S. settings, please do the following (for Microsoft Windows Operating system):

- START
- Control Panel
- Region and Language (under Clock, Language, and Region category)
- Format tah
- Change the Format from your existing one (e.g., "Italian (Italy)") to "English (United States)" (see screen shots below)

When you do this the number "twelve million dollars and thirty five cents" would change from \$12.000.000,35 (Italy format) to \$12,000,000.35 (U.S. format), and then there will be no conflict with the USITC importer questionnaire form. When you finish reporting the data then you can close the questionnaire and switch back to Italy (or your country) settings.

HOW TO FILE YOUR QUESTIONNAIRE RESPONSE

This questionnaire is available as a "fillable" form in MS Word format on the Commission's website at:

https://usitc.gov/reports/active import injury questionnaires.

Please do not attempt to modify the format or permissions of the questionnaire document. Please submit the completed questionnaire using one of the methods noted below. If your firm is unable to complete the MS Word questionnaire or cannot use one of the electronic methods of submission, please contact the Commission for further instructions.

• <u>Upload via Commission's secure submission portal</u>.— The questionnaire must be uploaded in two formats: (1) a Microsoft Word 97-2003 document; and (2) a PDF copy of the complete questionnaire with a signature on the first page. Please include any attachments at the end of the PDF (e.g., APO certification, additional comments, etc.).

Web address: https://usitc.gov/qportal Pin: COLD

• E-mail.— E-mail the MS Word questionnaire to stamen.borisson@usitc.gov; include a PDF copy of the complete questionnaire with a signature on the first page. Submitters are strongly encouraged to encrypt nonpublic documents that are electronically transmitted to the Commission to protect your sensitive information from unauthorized disclosure. The USITC secure submission portal and the Electronic Document Information System (EDIS) use Federal Information Processing Standards (FIPS) 140-2 cryptographic algorithms to encrypt data in transit. Submitting your nonpublic documents by a means that does not use these encryption algorithms (such as by email) may subject your firm's nonpublic information to unauthorized disclosure during transmission. If you choose a non-encrypted method of electronic transmission, the Commission warns you that the risk of such possible unauthorized disclosure is assumed by you and not by the Commission.

If your firm did not import this product, please fill out page 1, print, sign, and submit a scanned PDF copy via the Commission's secure submission portal or email.

<u>Parties to this proceeding</u>.— If your firm is a party to this proceeding, it is required to serve a copy of the completed questionnaire on parties to the proceeding that are subject to administrative protective order (see 19 CFR § 207.7). A list of such parties may be obtained from the Commission's Secretary (202-205-1802). A certificate of service must accompany the completed questionnaire you submit (see 19 CFR § 207.7). Service of the questionnaire must be made in paper form.
