

1st NIH Symposium on Women's Health Research in the IDeA States Participant Survey

OMB#: 0925-0648
Exp. Date 6/30/2024

Public reporting burden for this collection of information is estimated to average 5 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to: NIH, Project Clearance Branch, 6705 Rockledge Drive, MSC 7974, Bethesda, MD 20892-7974, ATTN: PRA (0925-0648). Do not return the completed form to this address.

Thank you for providing feedback on your experience at the 1st NIH Symposium on Women's Health Research in the IDeA States. All questions are optional and you may exit the survey at any time. Please send any questions to Jordan Tompkins at jordan.tompkins@nih.gov.

* Required

1. What is your relation to the NIH IDeA States program and this symposium? *

- ☐ NIH IDeA States Program Officer
- ☐ NIH Staff (other)
- ☐ IDeA States Women's Health Research administrative supplement awardee (or teammate of an awardee)
- ☐ IDeA state investigator (not a recipient of an administrative supplement on women's health research)

2. Were you aware of the IDeA program administrative supplement for research on women's health prior to today's session? *

- ☐ Yes
- ☐ No

3. Would you consider applying for an administrative supplement for research on women's health in the IDeA States in the future? *

- ☐ Yes
- ☐ No
- ☐ Does not apply

4. To what extent do you agree with the following statement? *

	Strongly Agree	Agree	Neutral	Disagree	Strongly disagree
After today's session, I am better informed about the IDeA Administrative supplements and their impact on awardees' research and women's health research.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Today's session was well organized.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
I am interested in attending another NIH Symposium on Women's Health Research in IDeA States in the future.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

5. Did you hear from any presenters with whom you would be interested in discussion or collaboration in the future? *

- ☐ Yes
- ☐ No

6. If yes, with whom would you be interested in having a discussion or collaboration? *

- ☐ Maribel Campos Rivera (Healthy Moms, Healthy Families)
- ☐ Emily Day (Delivery and short-term maternal and fetal safety of vaginally administered PEG-PLGA nanoparticle)
- ☐ Emily Harville (Pregnancy complications in the Strong Heart Study)
- ☐ Dimitry Kremmentsov (Genetic variation modifies sex differences in severity of viral infection)
- ☐ Xiawei Ou (Maternal Health and Lifestyle during Pregnancy and Offspring Brain Development)
- ☐ Nalini Santanam (Targeting Fusin Axis in Endometriosis-Associated Ovarian Cancer)
- ☐ Rachel Tinius (A Pilot Study on the Impact of the BumpUp® Mobile App on Physical Activity During and After Pregnancy)
- ☐ Kedra Wallace (A need for more than tele-text in postpartum hypertensive women)
- ☐ Subha Arthur and Usha Murughiyan (Maternal and Neonatal Outcomes in Women with Metabolic Syndrome and Substance Use Disorder)
- ☐ Diana Cruz-Topete (Direct Impact of Mental Stress Triggered by Confinement on the Female Heart and its Long-term Cardiac Effects)
- ☐ Jennifer Sones (Attenuation of maternal obesity in BPH/5 preeclamptic mice prevents cardiometabolic risk in female offspring)
- ☐ Lin-Xi Li (Explore a heterologous prime-boost vaccination (HetPBV) strategy against Chlamydia)
- ☐ Brian Cherrington (Epigenetic Regulation of miRNA Expression and Biogenesis in Lactotrope Cells)
- ☐ Motoki Takaku (Mechanism of Tumor Suppressor Function of Progesterone Receptor in Breast Cancer)
- ☐ Alex Mahanna (My Best Alaskan Life)
- ☐ Men-Jean Lee (Microplastic Accumulation in Placentas from Adverse Pregnancy Outcomes)
