October 2024

Dear Agricultural Producer:

The OSU Department of Agricultural Economics in cooperation with the Oklahoma Field Office of the National Agricultural Statistics Service is conducting a Land Leasing survey. We are asking your participation because of your involvement in Oklahoma production agriculture. Your answers to the following questions will assist us in developing timely information on this topic that is important to producers statewide. For example, Extension Educators are frequently asked about reported cash rentals in a given area. A research base helps provide reliable estimates to landlords and tenants since reported market rental information is a good place to start with negotiations of a fair and equitable agreement between parties.

Please respond even if you can answer only a few items. We know that your time is valuable and completing the survey should require less than 20 minutes of your time. Once completed, please use the enclosed postage paid Business Reply envelope for returning your completed survey questionnaire. Your mailing identification has been kept separate from your individual questionnaire to protect your confidentiality and survey response. Only totals, averages and other statistical measures will be published.

Thank you for the time and effort given to help us with this information. Results will be published in Current Report-216, "Oklahoma Pasture Rental Rates" and Current Report-230, "Oklahoma Cropland Rental Rates". Both publications will be available in OSU Extension offices as well as on the mobile phone friendly website, <https://extension.okstate.edu/fact-sheets/>. Should you have questions concerning survey content, please contact Roger Sahs (roger.sahs@okstate.edu) at (405) 744-9836.

Sincerely,

A handwritten signature in black ink that reads 'Roger Sahs'. The signature is fluid and cursive, with the first letters of the first and last names being capitalized and prominent.

Roger Sahs
Associate Extension Specialist
