Greetings,

As an academic librarian at a doctoral-granting institution, I oppose the plan to eliminate the Academic Libraries survey. The unique longitudinal data of the Academic Libraries survey provides crucial information about changes and trends in college and university libraries. I personally use this information as a librarian to compare our library to peer institutions; additionally, doctoral students find the data valuable.

Please support NCES to continue collecting data about college and university libraries. It is vital to the continued success of the academic librarianship profession!

Thank you!

Amanda Bezet
