As an advocate for libraries generally, and in recognition that strong libraries are essential to a well-educated citizenry, I hope you will continue to gather this information. I have observed in the last year the impact on school library advocacy of analysis of the NES School Library data for the past 3 cycles ([https://libslide.org/?fbclid=IwAR2wodwEoaa2W-tUi57\\_hpjRgeSxODd7leCGYf6ltPlyK8e1IalTVzmpMNI](https://libslide.org/?fbclid=IwAR2wodwEoaa2W-tUi57_hpjRgeSxODd7leCGYf6ltPlyK8e1IalTVzmpMNI)). Without data to highlight trends, understanding what would make institutions of higher education and their libraries will be much less able to see the big picture in which they fit.
