I oppose the plan to eliminate the Academic Libraries survey (IPEDS).

I work as a community college librarian and am the President-Elect of the New Jersey Library Association.

The unique longitudinal data of the Academic Libraries survey provides crucial information about changes and trends in college and university libraries. The Federal Government is uniquely positioned to conduct this type of work and it is absolutely invaluable to libraries and librarians as we strive to best serve our students, faculty, and communities.

Please reconsider this action.
