## General Comment

Information to be collected comment.

We are significantly concerned and pushback about submitting ID documents online and have zero confidence that the system is secure based on past government website security breaches.

1. Either Passport (Federally issued) or Driver's License (State Issued) should be available to qualified government representatives already.
2. Internet Breaches leave security and trust issues.

We feel that submitting data for a list is adequate and are not satisfied with the additional documents being requested.
