I oppose the plan to eliminate the Academic Libraries survey. I am a librarian at a university library, and a long-time member of the American Library Association. The Academic Libraries survey provides imperative documentation about libraries in higher education. This is particularly important in this moment when institutions of higher education, and libraries of all types, are under attack. My union also depends on a variety of iPEDS data, including from the Academic Libraries survey -- please don't take away this important data source.
