Hello to whom it may concern,

For the Application for T Nonimmigrant Status, Application for Derivative T Nonimmigrant Status, and Declaration for Trafficking Victim, I want to bring up the public burden and associated response time.

Online submission options – This will help ease the burden of data collecting by providing more online submission options, so it can create easier and faster processes than the physical paper form. This will help to keep all online submissions on a hard drive or database as physical paper forms may get lost in storage.

Language availability– This will aid immigrants who may have little to no English understanding. If the form is provided in other languages, the person can fill out the form without needing an interpreter.

24/7 Helpline – This can aid applicants who may need assistance with their form in a different time zone. Also, this will help those who may not be able to go in person or are off late from their job and can't make it to business hours.

Interpreter Services – This can assist someone who may not have anybody to help them with technology and help them fill out the online forms if they are still not provided in other languages.

This will help immigrants to have a better understanding by having simple instructions that can reduce stress and confusion. Also, it will be an easier process for both the applicants and the agency.

Sincerely,

Give Feedback

Marisol Fabian
