

How Do Diverse Perspectives Enhance Data Science Outcomes?

Date & Time	Oct 17, 2024 01:30 PM in Eastern Time (US and Canada)
Description	<p>The 2024–2025 Scientific Workforce Diversity Seminar Series kicks off with a conversation on the benefits of diverse perspectives in data science. Join our email list to be notified when registration opens.</p> <p>Discuss strategies to recognize and address bias in data science, including ensuring equitable representation in research spaces and increasing diverse participation. Highlight the benefits of an inclusive environment and diverse perspectives of data science researchers and data sets in this scientific field.</p> <p>Describe how diverse representation enhances machine learning and artificial intelligence accuracy, particularly in the context of health sciences, such as in electronic health record data sets.</p> <p>Panelists will be announced at a later date.</p> <p>OMB No.: 0925-0740 Expiration Date: 9/30/2025 Public reporting burden for this collection of information is estimated to average 5 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to: NIH, Project Clearance Branch, 6705 Rockledge Drive, MSC 7974, Bethesda, MD 20892-7974, ATTN: PRA (0925-0740). Do not return the completed form to this address.</p>
