Subject: Form N-400 Require a modification and Revision;

To Whom It May Concern:

May this situation is already in your knowledge that form N-400 require some Important corrections with many parts so we strongly request you to please put your attention on this matter specially with the following part and modify to correct it to save the American society from the Fraud Marriages which happens in our society each day and ruined many citizens lives forever.

Form N-400 part , Who may file Form N-400?

1. **A lawful permanent resident for at least five years and at least 18 years old;**
2. **A lawful permanent resident for at least three years, age 18 and married to and living with the same US citizen for the last three years;**

Now with this part requirement what happens most of the time many people use American criticizes by their fraud marriages only to get their entry into the united states and after they entered into the united states they don not accept their responsibilities towards this marriage because they just came to USA to get their Green Card and to make money to support their back home wives and families because most of the time they are married already in back home but they lied to visa officer to get their visa only that this is their first marriage so as per their plan after entering into the US and after getting their permanent resident card they divorce their spouse immediately and disappear forever. Most of the time they left their children with wives also with no child support.

But when they apply for their citizenship with the current form N-400 these Fraud people have choices to get their citizenship so they do not apply for their citizenships after 3 years because if they apply after 3 years than they have to show some marriage proves at least for three years but when they apply after 5 years than they don't need to show any marriage prove because your form had no requirement for it if someone is applying citizenship after 5 years so they wait 2 more years for it and apply their citizenship after 5 years very easily by Fraud Marriages drama they played very well with your citizens specially with your

office support because your Form-400 is helping them a lot to get their citizenship by the Fraud marriage and you are not doing anything to stop this crime in your society. You should make correction to Form N-400 immediately than they will not be able to apply their citizenship without their wives or husband they married.

Your form N-400 should have some requirements for those people who got a lawful permanent resident status by their marriages only , no matter when they apply for their citizenship they should have to provide some proves for the marriage like , joint bank account, Apartment lease with both names (husband and wife), utility bills with both names or separate name but for the same apartment to show they lived together at least for sometimes, photos to show living together, if they have kids they should provide photos with kids also, in short they should have to provide to your office at least past 3 years married status prove and living with the same US citizen for the last at least three years even if they are applying after 5 years. Something they must provide to prove their marriage otherwise their application for citizenship could not be approved.

As you know no marriage could take place immediately same like that no marriage could be finish immediately this happens only with fake and fraud marriages when one person used other person to achieve his success and after getting success and permanent resident card he left the partner with pain forever.

Sometimes some people have their contract marriages also in that case no one apply for their citizenship after 5 years because they help each other and they have many proves to show for their marriage within 3 years.

Before giving a citizenship to anyone you should find about Child Support also if they were paying their child support Regularly or NOT because if they are not a good parents how can they become a Good Citizens?

Hope you will do the Best. Take Care,

Thank You,
