U.S. IMPORTERS' QUESTIONNAIRE

HEXAMINE FROM CHINA, GERMANY, INDIA, AND SAUDI ARABIA

This questionnaire must be received by the Commission by October 15, 2024

See last page for instructions regarding how to file this questionnaire.

The information called for in this questionnaire is for use by the United States International Trade Commission in connection with its countervailing duty and antidumping investigations concerning hexamine (hexamethylenetetramine) from China, Germany, India, and Saudi Arabia (Inv. Nos. 701-TA-737-738 and 731-TA-1712-1715 (Preliminary)). The information requested in the questionnaire is requested under the authority of the Tariff Act of 1930, title VII. This report is mandatory and failure to reply as directed can result in a subpoena or other order to compel the submission of records or information in your firm's possession (19 U.S.C. § 1333(a)).

PART I.—GENERAL INFORMATION

Background. --This proceeding was instituted in response to a petition filed on September 30, 2024, by Bakelite Synthetics, Atlanta, Georgia. Countervailing and antidumping duties may be assessed on the subject imports as a result of these proceedings if the Commission makes an affirmative determination of injury, threat, or material retardation, and if the U.S. Department of Commerce ("Commerce") makes an affirmative determination of subsidization and/or dumping. Pertinent information to this proceeding is available at:

Questionnaires: https://usitc.gov/reports/active import injury questionnaires. Other case information: https://ids.usitc.gov/case/8225/investigation/8636

<u>Hexamine</u> covered by this proceeding is hexamine in granular form or powder, regardless of particle size, or as a slurry, stabilized or unstabilized, whether or not blended, mixed, pulverized, or grounded with other products, containing more than 50 percent hexamine by weight.

Hexamine is the common name for hexamethylene tetramine (Chemical Abstract Service # 100-97-0), and is also referred to as 1,3,5,7-tetraazaadamantanemethenamine; HMT; HMTA; 1,3,5,7 tetraazatricyclo {3.3.1.13,7} decane; 1,3,5,7-tetraaza adamantane; hexamethylenamine. Hexamine has the chemical formula C6H12N4.

Granular hexamine that has been blended with other product(s) is included in this scope when the resulting mix contains 50 percent or more of hexamine by weight, which include but are not limited to, (1) inert additives that do not react with hexamine; (2) co-reactants that react with hexamine when heated; and (3) additives that undergo self-condensation or reaction with other components when utilized in a mixture. Examples of such inert additives include, but are not limited to: precipitated silica, benzoic acid, aluminum silicate, diisodecyl phthalate (DIDP), calcium carbonate, magnesium stearate, citric acid, and metal oxides. Examples of such co-reactants include, but are not limited to: phenolic resins, alkylphenol novolacs, boron-modified novolac, phosphorous-modified novolac, rubber modified novolac, CNSL-novolac, tannin, lignin, tung oil, limonene-phenol condensate, resorcinol novolac, aniline-PF condensate, dicy-UF condensate, and 1,3-dihydroxybenzene. Examples of such additives that undergo self-condensation or reaction with other components when utilized in a mixture include, but are not limited to polyvinyl alcohol, urea, ammonium nitrate, and zinc dinitramide.

Subject merchandise includes merchandise matching the above description that has been processed in a third country, including by commingling, diluting, adding or removing additives, or performing any other processing that would not otherwise remove the merchandise from the scope of the investigations if performed in the subject country.

Hexamine that has been blended with other products is included within this scope when such blends include constituent parts that have been intermingled, but that have not been chemically reacted with each other to produce a different product.

Excluded from this scope is pharmaceutical hexamine in tablet or capsule form.

Hexamine is imported under subheading 2933.69.50 of the Harmonized Tariff Schedule of the United States (HTSUS). The HTSUS provisions are for convenience and customs purposes; the written description of the scope is dispositive.

<u>Importer</u>.--Any person or firm engaged, either directly or through a parent company or subsidiary, in importing hexamine (as defined above) into the United States from a foreign manufacturer or through its selling agent.

Reporting of information.--If information is not readily available from your records, provide carefully prepared estimates. If your firm is completing more than one questionnaire (i.e., a producer, importer, and/or purchaser questionnaire), you need not respond to duplicated questions.

<u>Confidentiality</u>.--The commercial and financial data furnished in response to this questionnaire that reveal the individual operations of your firm will be treated as confidential by the Commission to the extent that such data are not otherwise available to the public and will not be disclosed except as may be required by law (see 19 U.S.C. § 1677f). Such confidential information will not be published in a manner that will reveal the individual operations of your firm; however, general characterizations of numerical business proprietary information (such as discussion of trends) will be treated as confidential business information only at the request of the submitter for good cause shown.

<u>Verification</u>.--The information submitted in this questionnaire is subject to audit and verification by the Commission. To facilitate possible verification of data, please keep all files, worksheets, and supporting documents used in the preparation of the questionnaire response. Please also retain a copy of the final document that you submit.

Release of information.--The information provided by your firm in response to this questionnaire, as well as any other business proprietary information submitted by your firm to the Commission in connection with this proceeding, may become subject to, and released under, the administrative protective order provisions of the Tariff Act of 1930 (19 U.S.C. § 1677f) and section 207.7 of the Commission's Rules of Practice and Procedure (19 CFR § 207.7). This means that certain lawyers and other authorized individuals may temporarily be given access to the information for use in connection with this proceeding or other import-injury proceedings conducted by the Commission on the same or similar merchandise; those individuals would be subject to severe penalties if the information were divulged to unauthorized individuals.

<u>Valid number error messages.</u>—If you are completing this form in a country that uses periods (".") to delineate multiples of 1000 (e.g., one million would appear as \$1.000.000 rather than \$1,000,000), you may be unable to enter in numbers greater than 999 in numeric form fields. The solution to this data entry issue is to temporarily change your operating system's number formatting to be consistent with the U.S. number formatting system while you complete this form. Detailed instructions on how to resolve this issue are provided at the end of this questionnaire and are available upon request from Charles Cummings (202-708-1666, Charles.Cummings@usitc.gov).

<u>D-GRIDS tool.</u>--The Commission has a tool that firms can use to move data from their own MS Excel compilation files into self-contained data tables within this MS Word questionnaire, thereby reducing the amount of cell-by-cell data entry that would be required to complete this form. This tool is a macroenabled MS Excel file available for download from the Commission's generic questionnaires webpage (https://www.usitc.gov/trade_remedy/question.htm) called the "D-GRIDs tool." Use of this tool to help your firm complete this questionnaire is *optional*. Firms opting to use the D-GRIDs tool to populate their data into this questionnaire will need the D-GRIDs specification sheet PDF file specific to this proceeding (available on the case page which is linked under the "Background" above) which includes the necessary references relating to this questionnaire, as well as the macro-enable MS Excel D-GRIDs tool itself from the generic questionnaires page. More detailed instructions on how to use the D-GRIDs tool are available within the D-GRIDs tool itself.

U.S. Importers	' Questionnaire	- Hexamine	(Preliminary)
----------------	-----------------	------------	---------------

I-1.	Reporting requirementsPlease report below the actual number of hours required and the cost
	to your firm of completing this questionnaire for use by the Office of Management and Budget.

Hours	Dollars

Public reporting burden for this questionnaire is estimated to average 40 hours per response, including the time for reviewing instructions, gathering data, and completing and reviewing the questionnaire.

We welcome comments regarding the accuracy of this burden estimate, suggestions for reducing the burden, and any suggestions for improving this questionnaire. Please provide such comments to the Office of Investigations, import_injury@usitc.gov.

I-2a.	Establishments covered Provide the name and address of establishment(s) covered by this
	questionnaire.

"Establishment"Each facility of a firm involved in the importation of hexamine, including
auxiliary facilities operated in conjunction with (whether or not physically separate from) such
facilities.

I-7.	<u>Consignee</u> If your firm is an importer of record of hexamine but is not the consignee, please
	list the consignees below (firm name, address, telephone number, and individual to contact).

Firm name	Address	Contact person and phone number

I-8. **FTZ or bonded warehouses**.--Please indicate whether your firm admits hexamine into, or withdraws such merchandise from, foreign trade zones or bonded warehouses.

"Foreign trade zone" is a designated location in the United States where firms utilize special procedures that allow delayed or reduced customs duty payments on foreign merchandise, as well as other savings. A foreign trade zone must be designated as such pursuant to the rules and procedures set forth in the Foreign-Trade Zones Act.

"Bonded warehouse" is a secured facility supervised by U.S. customs, where dutiable landed imports are stored pending their re-export, or release after payment of import duties, taxes, and other charges. A bonded warehouse must be designated as such pursuant to the rules and procedures set forth in 19 U.S.C. § 1555.

Item	No	Yes	Quantity (in pounds) admitted in 2023
Foreign trade zones			
Bonded warehouses			

I-9. Other trade actions. -- To your knowledge, have the products subject to this proceeding been the subject of any other import relief proceedings in the United States or in any other countries?

No	Yes	If yes, Yes–Please specify.

PART II.--TRADE AND RELATED INFORMATION

Further information on this part of the questionnaire can be obtained from Charles Cummings (202-708-1666, Charles.Cummings@usitc.gov). Supply all data requested on a calendar-year basis.

II-1.	Contact informationPlease identify the responsible individual and the manner by which
	Commission staff may contact that individual regarding the confidential information submitted
	in Part II.

Name	
Title	
Email	
Telephone	

II-2a. <u>Changes in operations.</u>—Has your firm experienced any changes in ownership or in the nature of its importing operations for hexamine since January 1, 2021?

No	Yes	If yes, supply details as to the time, nature, and significance of such changes and describe reasons for the changes, including any underlying assumptions used.

II-2b. **COVID-19 pandemic.**—Has the COVID-19 pandemic or have any government actions taken to contain the spread of the COVID-19 virus resulted in changes in your firm's supply chain arrangements, importation, employment, and shipments relating to hexamine? In your response, please discuss the duration and timing of any such changes as they relate to your firm's operations.

No	Yes	If yes, describe these changes including the impact over time on the (a) supply chain, (b) importation and shipments, and (c) employment with respect to hexamine.	

II-3a. <u>Arranged imports</u>.--Has your firm imported or arranged for the importation of hexamine for delivery after **June 30, 2024**?

"Arranged imports" are imports for which your firm has placed an order with a foreign supplier for subject merchandise, but delivery of those imports is not scheduled to occur until after the date listed above.

No	Yes	
		If yes, fill out the table below.

	Period			
Source	Jul-Sept 2024	Oct-Dec 2024	Jan-Mar 2025	Apr-Jun 2025

India		
Saudi Arabia		
Russia		
All other sources		

II-4.	<u>Reasons for importing if producer</u> If your firm also produces hexamine in the United States, please indicate the reasons for importing this product. If your firm's reasons differ by source, please elaborate.

Definitions

"Imports" – Those products identified for Customs purposes as imports for consumption for which your firm was the importer of record (i.e., was responsible for paying any import duty).

"Import quantities" –Quantities reported should be net of returns.

"Import values"—Values reported should be landed, duty-paid values at the U.S. port of entry, including ocean freight and insurance costs, brokerage charges, and import duties (i.e., all charges except inland freight in the United States).

"Commercial U.S. shipments"— Shipments made within the United States as a result of an arm's length commercial transaction in the ordinary course of business. Report net values (i.e., gross sales values less all discounts, allowances, rebates, prepaid freight, and the value of returned goods) in U.S. dollars, f.o.b. your point of shipment.

"Internal consumption" – Product consumed internally by your firm. Such transactions are valued at fair market value.

"Transfers to related firms" – Shipments made to related firms. Such transactions are valued at fair market value.

"Export shipments"— Shipments to destinations outside the United States, including shipments to related firms.

"Inventories" -- Finished goods inventory, not raw materials or work in progress.

Note: As requested in Part I of this questionnaire, please keep all supporting documents/records used in the preparation of the trade data, as Commission staff may contact your firm regarding questions on the trade data. The Commission may also request that your company submit copies of the supporting documents/records (such as production and sales schedules, inventory records, etc.) used to compile these data.

II-5a. <u>U.S. imports from China</u>.—Report your firm's imports and your firm's shipments and inventories of hexamine imported from China by your firm during the specified periods.

II-5d. <u>U.S. imports of in-scope aqueous hexamine: China</u>.--Report your firm's U.S. imports of in-scope aqueous hexamine from China during the specified periods.

"In-scope aqueous hexamine mixtures" —A liquid or semi-liquid mixture containing both water and hexamine, in which the hexamine content of the mixture is at least greater than 50 percent of the total weight of the mixture. These in-scope aqueous hexamine mixtures could include, but are not limited to, hexamine in slurry form, and otherwise are included in the overall scope definition of hexamine as defined on page 2.

Note: Be sure to only report solutions that contain more than 50 percent hexamine by weight (i.e., match the scope), if they exist, at time of importation. Do not report normal aqueous hexamine solutions that, for the most part, contain 50 percent or less hexamine by weight.

China

PRICE DATA

- III-2. This question requests quarterly quantity and value data for your firm's commercial shipments to unrelated U.S. customers since January 1, 2021 of the following products your firm imported from China, Germany, India, and Saudi Arabia:
 - Product 1.-- "Unstabilized" Hexamine, with a hexamine content above 99% by weight.
 - **Product 2.--** "Stabilized" Hexamine, with a hexamine content above 95% but less than or equal to 99% by weight.
 - Product 3.-- "Stabilized" Hexamine, with a hexamine content equal to or below 95% by weight.

Please note that values should be <u>f.o.b.</u>, <u>U.S.</u> <u>point of shipment</u> and should not include U.S.-inland transportation costs. Values should reflect the *final net* amount paid to your firm (i.e., should be net of all deductions for discounts or rebates).

III-2a. During January 2021-June 2024, did your firm import from China, Germany, India, and Saudi Arabia and sell to unrelated U.S. customers any of the above listed products (or any products that were competitive with these products)?

YesPlease complete the following pricing data tables as appropriate.
NoSkip to question III-3.

III-2b. <u>Price data</u>.--Report below the quarterly price data¹ for pricing products² imported from China and sold by your firm.

III-19. Raw materials.-- Have hexamine raw material prices steadily increased, fluctuated but ended higher, not changed, fluctuated but ended lower, or steadily decreased since January 1, 2021?

Select one box per row.

Steadily increase	Fluctuate up	No change	Fluctuate down	Steadily decrease	Explain, noting how raw material price changes have affected your firm's selling prices for hexamine.

III-20. <u>Interchangeability.</u>—How often is hexamine produced in the United States and in other countries interchangeable (i.e., can they physically be used in the same applications)?

Please indicate A, F, S, N, or 0 in the table below:

A = the products from a specified country-pair are always interchangeable

F = the products are *frequently* interchangeable

S = the products are *sometimes* interchangeable

N = the products are *never* interchangeable

0 = no familiarity with products from a specified country-pair

Country-pair	China	Germany	India	Saudi Arabia	Other countries
United States					
China					
Germany					
India					
Saudi Arabia					

For any country-pair producing hexamine that is *sometimes* or *never* interchangeable, identify the country-pair and explain the factors that limit or preclude the interchangeable use of hexamine produced in the countries:

U.S. Importers' Questionnaire - Hexamine (Preliminary

III-21. <u>Factors other than price</u>.—How often are differences other than price (e.g., quality, availability, transportation network, product range, technical support, *etc.*) between hexamine produced in the United States and in other countries a significant factor in your firm's sales of the products?

Please indicate A, F, S, N, or 0 in the table below:

A = such differences are *always* significant

F = such differences are *frequently* significant

S = such differences are *sometimes* significant

N = such differences are *never* significant

0 = *no familiarity* with products from a specified country-pair

Country-pair	China	Germany	India	Saudi Arabia	Other countries
United States					
China					
Germany					
India					
Saudi Arabia		\mathbb{R}		\searrow	
For any country-pair for which factors other than price are <i>always</i> or <i>frequently</i> a significant factor in your firm's sales of hexamine, identify the country-pair and the relevant factors other than price, and report the advantages or disadvantages imparted by such factors:					

III-22. Role of section 301 tariffs.-- Did the tariffs on Chinese-origin products under section 301, or changes in these tariffs, have an impact on the hexamine market in the United States, including any effects on hexamine cost, price, supply, and/or demand, since January 1, 2021?

Yes	No	Don't know

If yes, please describe the impact on cost, price, supply, and/or demand, and include the timing of such impacts.	

III-23 <u>Customer identification.</u>--List the names and contact information for your firm's 10 largest U.S. customers for hexamine since January 1, 2021. Indicate the share of the quantity of your firm's U.S. shipments of hexamine that each of these customers accounted for in 2023.

III-24.	Other explanationsIf your firm would like to further explain a response to a question in Part III for which a narrative response box was not provided, please note the question number and the explanation in the space provided below. Please also use this space to highlight any issues your				
	firm had in providing the data in this section.				

PART IV.—ALTERNATIVE PRODUCT INFORMATION

Further information on this part of the questionnaire can be obtained from Charles Cummings (202-708-1666, Charles.Cummings@usitc.gov).

IV-1. <u>Comparability of alternative products.</u>-- For each of the following indicate whether listed hexamine products are: fully comparable or the same, *i.e.*, have no differentiation between them; mostly comparable or similar; somewhat comparable or similar; never or not-at-all comparable or similar; or no familiarity with products.

F: fully comparable or the same, i.e., have no differentiation between them;

M: mostly comparable or similar;

S: somewhat comparable or similar;

N: never or not-at-all comparable or similar; or

0: no familiarity with products.

"In-scope aqueous hexamine mixtures"—A liquid or semi-liquid mixture containing both water and hexamine, in which the hexamine content of the mixture is at least greater than 50 percent of the total weight of the mixture. These in-scope aqueous hexamine mixtures could include, but are not limited to, hexamine in slurry form, and otherwise are included in the overall scope definition of hexamine as defined on page 2.

"Out-of-scope aqueous hexamine mixtures"— A liquid or semi-liquid mixture containing both water and hexamine, in which the hexamine content of the mixture is 50 percent or less of the total weight of the mixture. These out-of-scope aqueous hexamine mixtures are excluded from the overall scope definition of hexamine as defined on page 2.

(a) <u>Physical Characteristics and End Uses</u>.--The differences and similarities in the physical characteristics and end uses.

Product-pair	Comparison	Please provide a narrative discussion for the comparability ratings you provided in terms of their <i>physical characteristics and uses</i> :
In-scope, aqueous hexamine mixtures vs. all other (i.e., non-aqueous) in-scope hexamine		
In-scope, aqueous hexamine mixtures vs. out-of-scope, aqueous hexamine mixtures		
All in-scope hexamine (both aqueous and non-aqueous) mixtures vs. out-of-scope, aqueous hexamine mixtures		

IV-1. <u>Comparability of alternative products.</u>-- Continued

F: fully comparable or the same, i.e., have no differentiation between them;

M: mostly comparable or similar;

S: somewhat comparable or similar;

N: never or not-at-all comparable or similar; or

0: no familiarity with products.

(b) <u>Interchangeability</u>.--The ability to substitute the products in the same application.

Product-pair	Comparison	Please provide a narrative discussion for the comparability ratings you provided in terms of their <i>interchangeability</i> :
In-scope, aqueous hexamine mixtures vs. all other (i.e., non-aqueous) in-scope hexamine		
In-scope, aqueous hexamine mixtures vs. out-of-scope, aqueous hexamine mixtures		
All in-scope hexamine (both aqueous and non-aqueous) mixtures vs. out-of-scope, aqueous hexamine mixtures		

(c) <u>Channels of distribution</u>.--Channels of distribution/market situation through which the products are sold (i.e., sold direct to end users, through wholesaler/distributors, etc.).

Product-pair	Comparison	Please provide a narrative discussion for the comparability ratings you provided in terms of their <i>channels of distribution</i> :
In-scope, aqueous hexamine mixtures vs. all other (i.e., non-aqueous) in-scope hexamine		
In-scope, aqueous hexamine mixtures vs. out-of-scope, aqueous hexamine mixtures		
All in-scope hexamine (both aqueous and non-aqueous) mixtures vs. out-of-scope, aqueous hexamine mixtures		

IV-1. Comparability of alternate products.--Continued

F: fully comparable or the same, i.e., have no differentiation between them;

M: mostly comparable or similar;

S: somewhat comparable or similar;

N: never or not-at-all comparable or similar; or

0: no familiarity with products.

(d) <u>Manufacturing facilities, production processes, and production employees</u>.--Whether manufactured in the same facilities, from the same inputs, on the same machinery and equipment, and using the same employees.

Product-pair	Comparison	Please provide a narrative discussion for the comparability ratings you provided in terms of their <i>manufacturing facilities, production processes, and production employees</i> :
In-scope, aqueous hexamine mixtures vs. all other (i.e., non-aqueous) in-scope hexamine		
In-scope, aqueous hexamine mixtures vs. out-of-scope, aqueous hexamine mixtures		
All in-scope hexamine (both aqueous and non-aqueous) mixtures vs. out-of-scope, aqueous hexamine mixtures		

(e) <u>Customer and producer perceptions</u>.--Perceptions as to the differences and/or similarities in the market (*e.g.*, sales/marketing practices).

Product-pair	Comparison	Please provide a narrative discussion for the comparability ratings you provided in terms of their <u>customer and producer perceptions</u> :
In-scope, aqueous hexamine mixtures vs. all other (i.e., non-aqueous) in-scope hexamine		
In-scope, aqueous hexamine mixtures vs. out-of-scope, aqueous hexamine mixtures		
All in-scope hexamine (both aqueous and non-aqueous) mixtures vs. out-of-scope, aqueous hexamine mixtures		

IV-1. <u>Comparability of alternate products.</u>--Continued

F: fully comparable or the same, i.e., have no differentiation between them;

M: mostly comparable or similar;

S: somewhat comparable or similar;

N: never or not-at-all comparable or similar; or

0: no familiarity with products.

(f) **Price**.--Whether prices are comparable or differ between the products.

Product-pair	Comparison	Please provide a narrative discussion for the comparability ratings you provided in terms of their <u>price</u> :
In-scope, aqueous hexamine mixtures vs. all other (i.e., non-aqueous) in-scope hexamine		
In-scope, aqueous hexamine mixtures vs. out-of-scope, aqueous hexamine mixtures		
All in-scope hexamine (both aqueous and non-aqueous) mixtures vs. out-of-scope, aqueous hexamine mixtures		

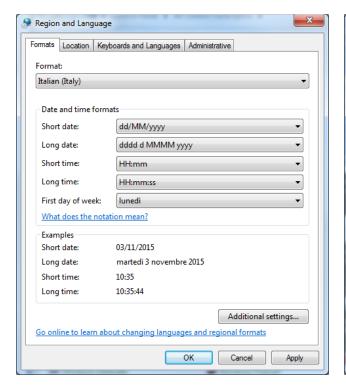

Correcting valid number error messages.--If you are completing this questionnaire in a country that uses periods (".") to delineate multiples of 1000 (i.e., one million would appear as \$1.000.000 instead of as \$1,000,000), you may be unable to enter in numbers greater than 999 in the numeric form fields. This issue stems from your computer's number formatting setting (i.e., not the MS Word document itself, but the computer from which you are opening up the document). In the United States commas (",") delineate multiples of 1000 and periods (".") delineate fractions less than one. Many EU and other countries use the reverse where multiples of 1000 are delineated with periods (".") and fractions less than one are delineated with commas (","). The U.S. International Trade Commission's questionnaires are set-up in the United States with the U.S. number formatting. When this formatting interacts with a computer set to EU or other country number formatting, we believe this may cause this issue.

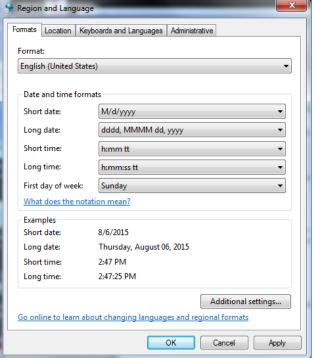

The solution to this data entry issue is to temporarily change your operating system's number formatting to be consistent with the U.S. number formatting system while you complete the questionnaire.

To temporarily change your computer's number settings to U.S. settings, please do the following (for Microsoft Windows Operating system):

- START
- Control Panel
- Region and Language (under Clock, Language, and Region category)
- Format tab
- Change the Format from your existing one (e.g., "Italian (Italy)") to "English (United States)" (see screen shots below)

When you do this the number "twelve million dollars and thirty five cents" would change from \$12.000.000,35 (Italy format) to \$12,000,000.35 (U.S. format), and then there will be no conflict with the USITC importer questionnaire form. When you finish reporting the data then you can close the questionnaire and switch back to Italy (or your country) settings.

HOW TO FILE YOUR QUESTIONNAIRE RESPONSE

This questionnaire is available as a "fillable" form in MS Word format on the Commission's website at:

https://usitc.gov/reports/active import injury questionnaires.

Please do not attempt to modify the format or permissions of the questionnaire document. Please submit the completed questionnaire using one of the methods noted below. If your firm is unable to complete the MS Word questionnaire or cannot use one of the electronic methods of submission, please contact the Commission for further instructions.

• <u>Upload via Commission's secure submission portal</u>.— The questionnaire must be uploaded in two formats: (1) a Microsoft Word 97-2003 document; and (2) a PDF copy of the complete questionnaire with a signature on the first page. Please include any attachments at the end of the PDF (e.g., APO certification, additional comments, etc.).

Web address: https://usitc.gov/qportal Pin: HEXA Phase: Preliminary

• E-mail.— E-mail the MS Word questionnaire to Charles.Cummings@usitc.gov; include a PDF copy of the complete questionnaire with a signature on the first page. Submitters are strongly encouraged to encrypt nonpublic documents that are electronically transmitted to the Commission to protect your sensitive information from unauthorized disclosure. The USITC secure submission portal and the Electronic Document Information System (EDIS) use Federal Information Processing Standards (FIPS) 140-2 cryptographic algorithms to encrypt data in transit. Submitting your nonpublic documents by a means that does not use these encryption algorithms (such as by email) may subject your firm's nonpublic information to unauthorized disclosure during transmission. If you choose a non-encrypted method of electronic transmission, the Commission warns you that the risk of such possible unauthorized disclosure is assumed by you and not by the Commission.

If your firm did not import this product, please fill out page 1, print, sign, and submit a scanned PDF copy via the Commission's secure submission portal or email.

Parties to this proceeding.— If your firm is a party to this proceeding, it is required to serve a copy of the completed questionnaire on parties to the proceeding that are subject to administrative protective order (see 19 CFR § 207.7). A list of such parties may be obtained from the Commission's Secretary (202-205-1802). A certificate of service must accompany the completed questionnaire you submit (see 19 CFR § 207.7). Service of the questionnaire must be made in paper form.
