Implementation"
(OMB Control Number:1545-2290)**

TITLE OF INFORMATION COLLECTION: Independent Office of Appeals
Customer Satisfaction Survey

PURPOSE OF COLLECTION:

What are you hoping to learn / improve? How do you plan to use what you learn? Are there artifacts (user personas, journey maps, digital roadmaps, summary of customer insights to inform service improvements, performance dashboards) the data from this collection will feed?

Appeals conducts a customer satisfaction survey as one measure to assess the service it is providing to the more than 70,000 customers who enter the appeals process each year. The survey is administered to a census of taxpayers with closed appeals cases. Many taxpayers use a tax professional to represent their case. Administering the survey as a census allows both the taxpayer and tax representative the opportunity to take the survey. The results of this survey allow Appeals to assess customer satisfaction with taxpayers and representatives' experience with the Appeals process and make informed service improvements.

3. Who will you collect the information from?

Explain who will be interviewed and why the group is appropriate for the Federal program / service to connect with. Please provide a description of how you plan to identify your potential group of respondents and if only a sample will be solicited for feedback, how you will select them(e.g., anyone who provided an email address to a call center rep, a representative sample of

Veterans who received outpatient services in May 2019, do you have a list of customers to reach out to (e.g., a CRM database that has the contact information, intercept interviews at a particular field office?) **All customers with closed Appeals cases during the survey period will have the opportunity to participate.**

4. How will you ask a respondent to provide this information? *(e.g., after an application is submitted online, the final screen will present the opportunity to provide feedback by presenting a link to a feedback form / an actual feedback form)*

All Appeals customers will receive a page included in their closing documents that contains a brief description of the Appeals survey along with a QR code/web link to the survey and a unique password.

5. What will the activity look like?
Describe the information collection activity - e.g. what happens when a person agrees to participate? Will facilitators or interviewers be used? What's the format of the interview/focus group? If a survey, describe the overall survey layout/length/other details? If User Testing, what actions will you observe / how will you have respondents interact with a product you need feedback on?

The web survey consists of 15 questions, which include the A-11 required questions as well as Appeals-specific questions on respondents' experiences with the appeals process. Beginning FY25, there will be two branches of questions -- one for Alternative Dispute Resolution cases and the other for the rest of the population. Appeals' ADR programs are evolving to better meet the needs of our customers, and we believe that asking ADR-specific questions will help us effectively identify areas for improvement.

6. Please provide your question list.
Paste here the questions or prompts presented to participants in your activity. If you have an interview / facilitator guide, that can be attached to the submission and referenced here.

Please make sure that all instruments, instructions, and scripts are submitted with the request.
