how do we only employ honest decent people in this capacity so we know they arent taking bribes for fake id cards based on nothing to terrorists. we all know money means alot fo many govt emploees. some would sell their mother for a few dollars so clearly the inclincation to make a few hundred or thousand for a fake id to a terrorist iseasy enough for this dept to do i think we need investigators int his dept who check on all cards that go out to see that there is no criminality going on. all americans are vulnerable to a dishonest employee staff int his dept. i dont think we shoudl reissue cards. go back to your country makes more sense to me. just go bck to your country. we have 20 million others here who are crowding america that most americans dont want here in the firest place. this entire immigration problem is done through this rotten dept that is bringing all kinds of problems to this country with these immigrants:
we have to pay for their food, their rent, their transport, their cell phones, their medical care, their education. american citizens dont ghet all that. what the hell kind of r=highway robbery is taking place here anyway.
