this agency is a sneak and does things underhandedly. we dont need an agency like that. this agency is all mixed up in the lies and propaganda of faucis covid vaccine. deadly in the middle of it all. its past time to have criminal investigations of this agency and defund it entirely. we dont need aid. we dont need sneaky agency. we are supposed to have open and trnasparent govt. what a long way we have come from open and trnasparent govt when we have sneaks in every agency in washington dc these days. absolutely and total sneaksy, latest one uncovered is moens.jean publiee jeanpublic1@gmail.com
