GAO Recommendations for Executive Action.

We are making the following four recommendations to VA:

The Under Secretary for Health should collect and assess information on subpopulations of veterans' use of the mileage reimbursement benefit and identify options, as appropriate, to help improve access to care for underserved veterans. (Recommendation 1)

The Under Secretary for Health should collect additional information on veterans' travel costs and assess costs by demographic, geographic, or other subpopulations to inform evidence-based decisions about transportation programs' resources. This additional information could include fuel costs and the cost of vehicle maintenance, accessories, parts, and tires. (Recommendation 2)

The Under Secretary for Health should finalize and implement an outreach plan for improving veterans' awareness of aspects of the mileage reimbursement benefit. The plan should include outcome-oriented performance measures and appropriate communication methods, based on factors such as the intended audience. (Recommendation 3)

The Under Secretary for Health should evaluate the effectiveness of the outreach plan for improving veterans' awareness of the benefit, and revise communication methods as appropriate. (Recommendation 4)
