Supporting Statement A:

13. VTP says, "There are no capitol, start-up costs".

Add: Cost estimates for computer, internet access, scanner, printer, ink, paper, envelopes, stamps, pens, telephone calls, electronic messaging...

"The estimates should take into account costs associated with generating, maintaining, and disclosing or providing the information.

"Capital and start-up costs include, among other items, preparations for collecting information such as purchasing computers...".

"Include descriptions of methods used to estimate major cost factors including system and technology acquisition, expected useful life of capital equipment, the discount rate(s), and the time period over which costs will be incurred."

"Operations and maintenance cost include the cost of mailing faxing or calling in information, making paper copies, notary costs, and electronic transmissions."
"Regular maintenance of any equipment initial cost fall under capital and start-up would also belong here."
