## General Comment

this is a very non productive govg program it costs more to run it than is ever collected for these stamps. the stamps are to memorialize killing birds which is a vile reason to have this program. killing birds is disgusting and there is a sixth extinctino in many bird species from these vile people who bujild these stamps as required by h untters. this entire program is a loss leader it does not produce as much in stamp fees as it costs yo run this program. it needs to e shut downl we need to discourage hte killing of birds. they dont deserve to be shot to death. encouraging such insane men with guns to go out and shoot these little birds is so egregious and disgusting and murderous. it needs shut down. right nowl
