U.S. IMPORTERS' QUESTIONNAIRE

EPOXY RESINS FROM CHINA, INDIA, SOUTH KOREA, TAIWAN, AND THAILAND

This questionnaire must be received by the Commission by <u>December 11, 2024</u>
See last page for instructions regarding how to file this questionnaire.

The information called for in this questionnaire is for use by the United States International Trade Commission in connection with its countervailing and antidumping duty investigations concerning epoxy resins from China, India, South Korea, Taiwan, and Thailand (Inv. Nos. 701-TA-716-719 and 731-TA-1683-1687 (Final)). The information requested in the questionnaire is requested under the authority of the Tariff Act of 1930, Title VII. This report is mandatory and failure to reply as directed can result in a subpoena or other order to compel the submission of records or information in your firm's possession (19 U.S.C. § 1333(a)).

PART I.--GENERAL INFORMATION

Background.-- This proceeding was instituted in response to petitions filed on April 3, 2024, by the U.S. Epoxy Resin Producers *Ad Hoc* Coalition, which is comprised of Olin Corporation, Clayton, Missouri, and Westlake Corporation, Houston, Texas. Countervailing and/or antidumping duties may be assessed on the subject imports as a result of these proceedings if the Commission makes an affirmative determination of injury, threat, or material retardation, and if the U.S. Department of Commerce ("Commerce") makes an affirmative determination of subsidization and/or dumping. Pertinent information to this proceeding are available at:

- Questionnaires: https://www.usitc.gov/reports/active import injury questionnaires.
- Other information: https://ids.usitc.gov/case/8190/investigation/8552.

Epoxy resins.—The merchandise subject to these investigations are fully or partially uncured epoxy resins, also known as epoxide resins, polyepoxides, oxirane resins, ethoxyline resins, diglycidyl ether of bisphenol, (chloromethyl)oxirane, or aromatic diglycidyl, which are polymers or prepolymers containing epoxy groups (i.e., three-membered ring structures comprised of two carbon atoms and one oxygen atom). Epoxy resins range in physical form from low viscosity liquids to solids. All epoxy resins are covered by the scope of these investigations irrespective of physical form, viscosity, grade, purity, molecular weight, or molecular structure, and packaging.

Epoxy resins may contain modifiers or additives, such as hardeners, curatives, colorants, pigments, diluents, solvents, thickeners, fillers, plasticizers, softeners, flame retardants, toughening agents, catalysts, Bisphenol F, and ultraviolet light inhibitors, so long as the modifier or additive has not chemically reacted so as to cure the epoxy resin or convert it into a different product no longer containing epoxy groups. Such epoxy resins with modifiers or additives are included in the scope where the epoxy resin component comprises no less than 30 percent of the total weight of the product. The scope also includes blends of epoxy resins with different types of epoxy resins, with or without the inclusion of modifiers and additives, so long as the combined epoxy resin component comprises at least 30 percent of the total weight of the blend.

Epoxy resins that enter as part of a system or kit with separately packaged co-reactants, such as hardeners or curing agents, are within the scope. The scope does not include any separately packaged co-reactants that would not fall within the scope if entered on their own.

The scope includes merchandise matching the above description that has been processed in a third country, including by commingling, diluting, introducing, or removing modifiers or additives, or performing any other processing that would not otherwise remove the merchandise from the scope of the investigations if performed in the subject country.

The scope also includes epoxy resin that is commingled or blended with epoxy resin from sources not subject to these investigations. Only the subject component of such commingled products is covered by the scope of these investigations.

Excluded from the scope are phenoxy resins, which are polymers with a weight greater than 11,000 Daltons, a Melt Flow Index (MFI) at 200 °C (392 °F) no less than 4 grams and no greater than 70 grams per 10 min, Glass-Transition Temperatures (Tg) no less than 80 °C (176 °F) and no greater than 100 °C (212 °F), and which contain no epoxy groups other than at the terminal ends of the molecule.

Excluded from the scope are certain paint and coating products, which are blends, mixtures, or other formulations of epoxy resin, curing agent, and pigment, in any form, packaged in one or more containers, wherein (1) the pigment represents a minimum of 10 percent of the total weight of the product, (2) the epoxy resin represents a maximum of 80 percent of the total weight of the product, and (3) the curing agent represents 5 to 40 percent of the total weight of the product.

Excluded from the scope are preimpregnated fabrics or fibers, often referred to as "pre-pregs," which are composite materials consisting of fabrics or fibers (typically carbon or glass) impregnated with epoxy resin.

This merchandise is currently classifiable under Harmonized Tariff Schedule of the United States (HTSUS) subheading 3907.30.0000. Subject merchandise may also be imported under subheadings/statistical reporting numbers 3907.29.0000, 3824.99.9397, 3214.10.0020, 2910.90.9100, 2910.90.9000, 2910.90.2000, and 1518.00.4000. The HTSUS subheadings/statistical reporting numbers are provided for convenience and customs purposes only; the written description of the scope is dispositive.

<u>Importer</u>.--Any person or firm engaged, either directly or through a parent company or subsidiary, in importing epoxy resins (as defined above) into the United States from a foreign manufacturer or through its selling agent.

Quantity (1,000 pounds). -- Unless otherwise indicated please report quantities on a gross weight basis.

<u>Reporting of information</u>.--If information is not readily available from your records, provide carefully prepared estimates. If your firm is completing more than one questionnaire (i.e., a producer, importer, and/or purchaser questionnaire), you need not respond to duplicated questions.

<u>Confidentiality</u>.--The commercial and financial data furnished in response to this questionnaire that reveal the individual operations of your firm will be treated as confidential by the Commission to the extent that such data are not otherwise available to the public and will not be disclosed except as may be required by law (see 19 U.S.C. § 1677f). Such confidential information will not be published in a manner that will reveal the individual operations of your firm; however, general characterizations of numerical business proprietary information (such as discussion of trends) will be treated as confidential business information only at the request of the submitter for good cause shown.

<u>Verification</u>.--The information submitted in this questionnaire is subject to audit and verification by the Commission. To facilitate possible verification of data, please keep all files, worksheets, and supporting documents used in the preparation of the questionnaire response. Please also retain a copy of the final document that you submit.

Release of information.--The information provided by your firm in response to this questionnaire, as well as any other business proprietary information submitted by your firm to the Commission in connection with this proceeding, may become subject to, and released under, the administrative protective order provisions of the Tariff Act of 1930 (19 U.S.C. § 1677f) and section 207.7 of the Commission's Rules of Practice and Procedure (19 CFR § 207.7). This means that certain lawyers and other authorized individuals may temporarily be given access to the information for use in connection with this proceeding or other import-injury proceedings conducted by the Commission on the same or similar merchandise; those individuals would be subject to severe penalties if the information were divulged to unauthorized individuals.

<u>Valid number error messages.</u>--If you are completing this form in a country that uses periods (".") to delineate multiples of 1000 (e.g., one million would appear as \$1.000.000 rather than \$1,000,000), you may be unable to enter in numbers greater than 999 in numeric form fields. The solution to this data entry issue is to temporarily change your operating system's number formatting to be consistent with the U.S. number formatting system while you complete this form. Detailed instructions on how to resolve this issue is provided at the end of this questionnaire and is available upon request from Alejandro Orozco (202-205-3177, <u>Alejandro Orozco@usitc.gov</u>).

<u>D-GRIDS tool.</u>--The Commission has a tool that firms can use to move data from their own MS Excel compilation files into self-contained data tables within this MS Word questionnaire, thereby reducing the amount of cell-by-cell data entry that would be required to complete this form. This tool is a macroenabled MS Excel file available for download from the Commission's generic questionnaires webpage (https://www.usitc.gov/trade_remedy/question.htm) called the "D-GRIDs tool." Use of this tool to help your firm complete this questionnaire is <u>optional</u>. Firms opting to use the D-GRIDs tool to populate their data into this questionnaire will need the D-GRIDs specification sheet PDF file specific to this proceeding (available on the case page which is linked under the "Background" above) which includes the necessary references relating to this questionnaire, as well as the macro-enable MS Excel D-GRIDs tool itself from the generic questionnaires page. More detailed instructions on how to use the D-GRIDs tool are available within the D-GRIDs tool itself.

I-1. Reporting requirements.--Please report below the actual number of hours required and the cost to your firm of completing this questionnaire for use by the Office of Management and Budget.

Hours	Dollars

Public reporting burden for this questionnaire is estimated to average 40 hours per response, including the time for reviewing instructions, gathering data, and completing and reviewing the questionnaire.

We welcome comments regarding the accuracy of this burden estimate, suggestions for reducing the burden, and any suggestions for improving this questionnaire. Please provide such comments to the Office of Investigations, import injury@usitc.gov.

I-2a. <u>Establishments covered</u>.--Provide the name and address of establishment(s) covered by this questionnaire.

"Establishment" Each facility of a firm involved in the importation of epoxy resins, including
auxiliary facilities operated in conjunction with (whether or not physically separate from) such
facilities.

PART II.--TRADE AND RELATED INFORMATION

Telephone

Further information on this part of the questionnaire can be obtained from Alejandro Orozco (202-205	5-
3177, Alejandro.Orozco@usitc.gov). Supply all data requested on a calendar-year basis.	

II-1.	Contact information Please identify the responsible individual and the manner by which					
	Commission staff may contact that individual regarding the confidential information submitted					
	in Part II.					
	Name					
	Title					
	Fmail					

II-2a. <u>Changes in operations.--</u>Has your firm experienced any changes in ownership or in the nature of its importing operations for epoxy resins since January 1, 2021?

No	Yes	If yes, supply details as to the time, nature, and significance of such changes and describe reasons for the changes, including any underlying assumptions used.

II-2b. COVID-19 pandemic.--Has the COVID-19 pandemic or have any government actions taken to contain the spread of the COVID-19 virus resulted in changes in your firm's supply chain arrangements, importation, employment, and shipments relating to epoxy resins? In your response, please discuss the duration and timing of any such changes as they relate to your firm's operations.

No	Yes	If yes, describe these changes including the impact over time on the (a) supply chain, (b) importation and shipments, and (c) employment with respect to epoxy resins.

Definitions

<u>Country of origin</u>.--Report your firm's imports of epoxy resins based on the country of origin, i.e., where the epoxy resin molecules themselves were manufactured or chemically reacted. This may differ from where the last manufacturing or processing activity occurred. And this may also differ from the country of origin reported to CBP.

"Imports" –Those products identified for Customs purposes as imports for consumption for which your firm was the importer of record (i.e., was responsible for paying any import duty).

"Import quantities" –Quantities reported should be net of returns.

"Import values"—Values reported should be landed, duty-paid values at the U.S. port of entry, including ocean freight and insurance costs, brokerage charges, and import duties (i.e., all charges except inland freight in the United States).

"Commercial U.S. shipments"—Shipments made within the United States as a result of an arm's length commercial transaction in the ordinary course of business. Report net values (i.e., gross sales values less all discounts, allowances, rebates, prepaid freight, and the value of returned goods) in U.S. dollars, f.o.b. your point of shipment.

"Internal consumption" – Product consumed internally by your firm. Such transactions are valued at fair market value.

"Transfers to related firms" – Shipments made to related firms. Such transactions are valued at fair market value.

"Export shipments" – Shipments to destinations outside the United States, including shipments to related firms.

"Inventories" – Finished goods inventory, not raw materials or work in progress.

Note: As requested in Part I of this questionnaire, please keep all supporting documents/records used in the preparation of the trade data, as Commission staff may contact your firm regarding questions on the trade data. The Commission may also request that your company submit copies of the supporting documents/records (such as production and sales schedules, inventory records, etc.) used to compile these data.

II-5a. <u>U.S. imports from China</u>.—Report your firm's imports and your firm's shipments and inventories of epoxy resins imported from China by your firm during the specified periods.

<u>RECONCILIATION OF SHIPMENTS, IMPORTS, AND INVENTORIES.</u>.-Generally, the data reported for the end-of-period inventories (i.e., line N) should be equal to the beginning-of-period inventories (i.e., line A), plus imports (i.e., lines B and D), less total shipments (i.e., lines F, H, J, and L). Please ensure that any differences are not due to data entry errors in completing this form, but rather actually reflect your firm's records; and also provide any likely explanations for any differences (e.g., theft, loss, damage, record systems issues, etc.) if they exist.

	Calendar year			January-S	September

II-11. Imports of Chinese epoxy resins processed in Canada.--If your firm imported epoxy resins from Canada (i.e., data in questions II-10a through II-10d), please make sure that that is the correct classification of your firm's imports based on the definition for the <u>country of origin</u> reporting in this questionnaire (see page 10). Just because your firm imported product from Canada and reported those imports (properly per Customs regulations) as country of origin Canada, if the imported epoxy resins were not chemically reacted/manufactured in Canada, but were solely processed in Canada via some type of formulation, blending, or manufacturing operation of Chinese-origin epoxy resins in Canada, please revise your firm's reporting to include those volumes per Commission instructions in the China grids (i.e., data in question II-5a through II-5f), and then separately please report below the quantity and value of imported epoxy resins so reclassified.

		Quantity (in 1,000 pounds	s) and Value (<i>in \$1,000</i>)¹

PRICE DATA

- III-2. This question requests quarterly quantity and value data for your firm's commercial shipments to unrelated U.S. customers since January 1, 2021 of the following products your firm imported from China, India, South Korea, Taiwan, and/or Thailand.
 - **Product 1.--** Bisphenol A liquid epoxy resin, basic commodity grade (i.e., D.E.R. 331, EPON 828, KER 828, YD 128, NPEL128, BE-188, and SM 828), sold in bulk (ISO Tanks or Tank Truck).
 - **Product 2.--** Bisphenol A liquid epoxy resin, basic commodity grade (i.e., D.E.R. 331, EPON 828, KER 828, YD 128, NPEL128, BE-188, and SM 828), sold in packages (Totes, Intermediate Bulk Containers ("IBC's"), or drums).
 - Product 3.--Bisphenol A solid epoxy resin, Type 3, Epoxy Equivalent Weight ("EEW") based on solids range between 700-850 g/eq (i.e., D.E.R. 663U, D.E.R. 663UE, EPON 2003, KD 213, KD 243C, KER 3033, NPES 903H, BE 503, YD 903).
 - **Product 4.--**Bisphenol A solid epoxy resin, Type 4, Epoxy Equivalent Weight ("EEW") based on solids range between 800-1,000 g/eq (i.e., D.E.R. 664UE, EPON 2004, KD 214L, NPES 904H, BE 504H).

Please note that values should be <u>f.o.b.</u>, <u>U.S.</u> <u>point of shipment</u> and should remove any U.S.-inland transportation costs. Values should reflect the *final net* amount paid to your firm (i.e., should be net of all deductions for discounts or rebates).

III-2a. During January 2021-September 2024, did your firm import from China, India, South Korea, Taiwan, and/or Thailand and sell to unrelated U.S. customers any of the above listed products (or any products that were competitive with these products)?

YesPlease complete the following pricing data tables as appropriate.
NoSkip to question III-3.

² Pricing product definitions are provided on the first page of Part III.

III-2g. <u>Price data checklist.</u>--Please check that the pricing data in data grids above have been correctly reported.

Are the price data reported above:	√ if Yes				
In actual dollars (<i>not</i> \$1,000) and actual pounds (<i>not</i> 1,000 pounds)?					
Valued f.o.b. U.S. point of shipment (i.e., exclude U.S. inland transportation costs)?					
Reported net of all discounts, rebates, and returns (deducted from the quarter in which the original sale occurred)?					
Reported for commercial U.S. shipments only (i.e., exclude internal consumption, transfers, and exports)?					
Less than or equal to the quantities and values reported in part II for commercial U.S. shipments in each period?					
Explanation(s) for any boxes not checked:					
Pricing data methodologyPlease describe the method and the kinds of documents/that were used to compile your price data.	records				

Note: As requested in Part I of this questionnaire, please keep all supporting documents/records used in the preparation of the price data, as Commission staff may contact your firm regarding questions on the price data. The Commission may also request that your company submit copies of the supporting documents/records (such as sales journal, invoices, etc.) used to compile these data.

III-18. Supply constraints.	III-18.	Supply constraints	
-----------------------------	---------	--------------------	--

(a)	Has your firm refused, declined, or been unable to supply epoxy resins at any time since
	January 1, 2021 (examples include placing customers on allocation or "controlled order
	entry," declining to accept new customers or renew existing customers, delivering less
	than the quantity promised, being unable to meet timely shipment commitments,
	impact from changes in operations listed in II-2a, etc.)?

No (skip to III-19)	Yes (respond to part b)

(b) For each year that your firm faced supply constraints, describe the constraints with the details requested below.

Period	Description: include the timing, duration, and reason for the constraint.
2021	
2022	
2023	
January 1- April 3, 2024	
Since April 3, 2024	

III-19. Raw materials.-- Have epoxy resins' raw material prices steadily increased, fluctuated but ended higher, not changed, fluctuated but ended lower, or steadily decreased since January 1, 2021?

Select one box per row.

Steadily increase	Fluctuate higher	No change	Fluctuate lower	Steadily decrease	Explain, noting how raw material price changes have affected your firm's selling prices for epoxy resins.

III-20. <u>Interchangeability</u>.—How often are epoxy resins produced in the United States and in other countries interchangeable (i.e., are they used in the same applications for the same types of customers' needs)?

Please indicate A, F, S, N, or 0 in the table below:

- A = the products from a specified country-pair are *always* interchangeable
- F = the products are *frequently* interchangeable
- S = the products are *sometimes* interchangeable
- N = the products are *never* interchangeable
- 0 = *no familiarity* with products from a specified country-pair

Country-pair	China	India	South Korea	Taiwan	Thailand	Other countries
United States						
China						
India						
South Korea						
Taiwan						
Thailand						

For any country-pair producing epoxy resins that is *sometimes* or *never* interchangeable, identify the country-pair and explain the factors that limit or preclude the interchangeable use of epoxy resins produced in the countries:

115	Importers'	Ouestion	naire –	- Fnovy	Rasins	(Final)
U.S.	IIIIDOLLEIS	Question	ııaıı e -	- EDUXV	veziiiz i	ırııaı

III-21. <u>Factors other than price</u>.—How often are differences other than price (e.g., quality, availability, transportation network, product range, technical support, *etc.*) between epoxy resins produced in the United States and in other countries a significant factor in your firm's sales of the products?

Please indicate A, F, S, N, or 0 in the table below:

- A = such differences are *always* significant
- F = such differences are *frequently* significant
- S = such differences are *sometimes* significant
- N = such differences are *never* significant
- 0 = *no familiarity* with products from a specified country-pair

Country-pair	China	India	South Korea	Taiwan	Thailand	Other countries
United States						
China						
India						
South Korea						
Taiwan						
Thailand					><	

For any country-pair for which factors other than price are *always* or *frequently* a significant factor in your firm's sales of epoxy resins, identify the country-pair and the relevant factors other than price, and report the advantages or disadvantages imparted by such factors:

III-22. Role of section 301 tariffs.-- Did the tariffs on Chinese-origin products under section 301, or changes in these tariffs, have an impact on the market for epoxy resins in the United States, including any effects on epoxy resins' cost, price, supply, and/or demand, since January 1, 2021?

No	Yes	Don't know

If yes, please describe the impact on cost, price, supply, and/or demand, and include the timing of such impacts.	

III-23. <u>Customer identification.</u>--List the names and contact information for your firm's 10 largest U.S. customers for epoxy resins since January 1, 2021. Indicate the share of the quantity of your firm's U.S. shipments of epoxy resins that each of these customers accounted for in 2023.

Cı	ustomer's name	Contact person	Email	Telephone	City	State	Share of 2023 sales (%)

10							

III-24.	Other explanationsIf your firm would like to further explain a response to a question in Part III for which a narrative response box was not provided, please note the question number and the explanation in the space provided below. Please also use this space to highlight any issues your firm had in providing the data in this section.

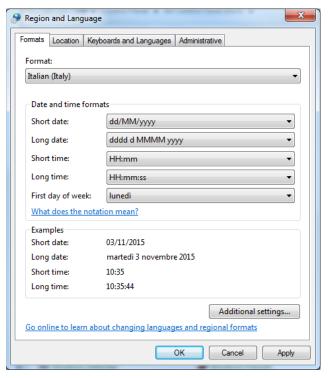

Correcting valid number error messages.--If you are completing this questionnaire in a country that uses periods (".") to delineate multiples of 1000 (i.e., one million would appear as \$1.000.000 instead of as \$1,000,000), you may be unable to enter in numbers greater than 999 in the numeric form fields. This issue stems from your computer's number formatting setting (i.e., not the MS Word document itself, but the computer from which you are opening up the document). In the United States commas (",") delineate multiples of 1000 and periods (".") delineate fractions less than one. Many EU and other countries use the reverse where multiples of 1000 are delineated with periods (".") and fractions less than one are delineated with commas (","). The U.S. International Trade Commission's questionnaires are set-up in the United States with the U.S. number formatting. When this formatting interacts with a computer set to EU or other country number formatting, we believe this may cause this issue.

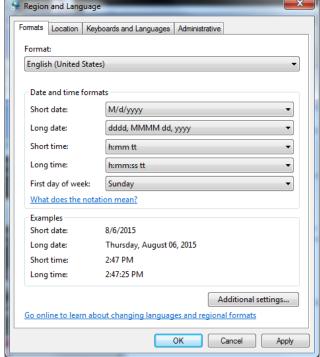

The solution to this data entry issue is to temporarily change your operating system's number formatting to be consistent with the U.S. number formatting system while you complete the questionnaire.

To temporarily change your computer's number settings to U.S. settings, please do the following (for Microsoft Windows Operating system):

- START
- Control Panel
- Region and Language (under Clock, Language, and Region category)
- Format tab
- Change the Format from your existing one (e.g., "Italian (Italy)") to "English (United States)" (see screen shots below)

When you do this the number "twelve million dollars and thirty five cents" would change from \$12.000.000,35 (Italy format) to \$12,000,000.35 (U.S. format), and then there will be no conflict with the USITC importer questionnaire form. When you finish reporting the data then you can close the questionnaire and switch back to Italy (or your country) settings.

HOW TO FILE YOUR QUESTIONNAIRE RESPONSE

This questionnaire is available as a "fillable" form in MS Word format on the Commission's website at: https://www.usitc.gov/reports/active_import_injury_questionnaires.

Please do not attempt to modify the format or permissions of the questionnaire document. Please submit the completed questionnaire using one of the methods noted below. If your firm is unable to complete the MS Word questionnaire or cannot use one of the electronic methods of submission, please contact the Commission of further instructions.

• <u>Upload via Commission's secure submission portal</u>.—The questionnaire must be uploaded in two formats: (1) a Microsoft Word 97-2003 document; and (2) a PDF copy of the complete questionnaire with a signature on the first page. Please include any attachments at the end of the PDF (e.g., APO certification, additional comments, etc.).

Web address: https://www.usitc.gov/qportal Pin: EPOXY Phase: FINAL

• E-mail.—E-mail the MS Word questionnaire to Alejandro.Orozco@usitc.gov; include a PDF copy of the complete questionnaire with a signature on the first page. Submitters are strongly encouraged to encrypt nonpublic documents that are electronically transmitted to the Commission to protect your sensitive information from unauthorized disclosure. The USITC secure submission portal and the Electronic Document Information System (EDIS) use Federal Information Processing Standards (FIPS) 140-2 cryptographic algorithms to encrypt data in transit. Submitting your nonpublic documents by a means that does not use these encryption algorithms (such as by email) may subject your firm's nonpublic information to unauthorized disclosure during transmission. If you choose a non-encrypted method of electronic transmission, the Commission warns you that the risk of such possible unauthorized disclosure is assumed by you and not by the Commission.

If your firm <u>does not </u>**import this product**, please fill out page 1, print, sign, and submit a scanned PDF copy via the Commission's secure submission portal or email.

<u>Parties to this proceeding.</u>—If your firm is a party to this proceeding, it is required to serve a copy of the completed questionnaire on parties to the proceeding that are subject to administrative protective order (see 19 CFR § 207.7). A list of such parties may be obtained from the Commission's Secretary (202-205-1802). A certificate of service must accompany the completed questionnaire you submit (see 19 CFR § 207.7). Service of the questionnaire must be made in paper form.
