General Comment

there should be no haying or grazing on nwrs.all of that needs elimiantion immediatelythe best habitat for wildlife is having farmers off the nwrs. wildlife doesnt need people around. farmers routinely kill and murder wildlife. that is all they talk about. shut down all guides on nwrs. the idea of providing someone to help you murder and kill is offensive in 2024. it needs to be shut down immediately. it is sicko psysho behavior to kill and murder wildlife in 2024 when there is no land for them to live on anymore. even in refuges to sendout murderers is disgusting.all forms tha you use should be posted on your website all completed forms that you have okd should be posted on your website. the public has a right to know who is using and abusing their public lands.i see no reason for another form. \$100 for berry picking. who wuld pay that? and why let them take the berries that should be there for the bears to eat. fws is popualted and manned by wildlife murderers so the wildlife in america \doesnt have a chance at life. they are murdered by this federal agency, which i totally slanted and biased to wildlife murder.
