LOST SALES AND LOST REVENUE SURVEY ACTIVE ANODE MATERIAL FROM CHINA

This survey must be received by the Commission by January 2, 2025

See last page for instructions regarding how to file this questionnaire.

The information called for in this survey is for use by the United States International Trade Commission in connection with its countervailing and antidumping duty investigations concerning active anode material from China (Inv. Nos. 701-TA-752 and 731-TA-1730 (Preliminary)). The information requested in the survey is requested under the authority of the Tariff Act of 1930, title VII. This report is mandatory and failure to reply as directed can result in a subpoena or other order to compel the submission of records or information in your possession (19 U.S.C. § 1333(a)). Further information on this survey can be obtained from Ricky Ubee (202-205-3493, ravinder.ubee@usitc.gov).

GENERAL INFORMATION

<u>Background</u>.-- This proceeding was instituted in response to petitions filed on December 18, 2024, by the American Active Anode Material Producers, the members of which are Anovion Technologies, Sanborn, New York; Syrah Technologies LLC, Vidalia, Louisiana; NOVONIX Anode Materials LLC, Chattanooga, Tennessee; Epsilon Advanced Materials, Leland, North Carolina; and SKI US, Inc., Marietta, Georgia. Countervailing and/or antidumping duties may be assessed on the subject imports as a result of these proceedings if the Commission makes an affirmative determination of injury, threat, or material retardation, and if the U.S. Department of Commerce ("Commerce") makes an affirmative determination of subsidization and/or dumping. Pertinent information to this proceeding is available at:

Questionnaires: https://usitc.gov/reports/active import injury questionnaires. Other case information: https://ids.usitc.gov/case/8249/investigation/8680.

<u>Active anode material</u> covered by this proceeding is active anode material, whether synthetic, natural, or a blend of synthetic or natural; with or without coating; regardless of whether in powder, dry, liquid, or any other form. Subject merchandise typically has a maximum size of 80 microns. Subject merchandise has an energy density of 330 milliamp hours per gram or greater and a degree of graphitization of 80% or greater. Subject merchandise can be referred to as "active anode material."

Subject merchandise is covered regardless of whether it is mixed with silicon based active materials, e.g., silicon-oxide (SiOx), silicon-carbon (SiC), or silicon, or additives such as carbon black or carbon nanotubes. Subject merchandise is covered regardless of the combination of compounds that comprise the graphite material; the graphite contained in the subject merchandise has a minimum purity content of 90% carbon. Subject merchandise is covered regardless of whether it is imported independently, as part of a compound, in a battery, as a component of an anode slurry, or in a subassembly of a battery such as an electrode. Only the anode grade graphite material is covered when entered as part of a mixture with silicon based active materials, as part of a compound, in a battery, as a component of an anode slurry, or in a subassembly of a battery such as an electrode.

Active anode material subject to the investigations may be classified under the Harmonized Tariff Schedule of the United States (HTSUS) subheadings 2504.10.5000 and 3801.10.5000. Subject merchandise may also be imported under HTSUS subheading 3801.90.0000. The HTSUS subheadings are provided for convenience and customs purposes only. The written description of the scope of the investigations is dispositive.

<u>Reporting of information</u>.-- If information is not readily available from your records, provide carefully prepared estimates.

<u>Confidentiality</u>.--The data furnished in response to this survey that reveal the individual operations of your firm will be treated as confidential by the Commission to the extent that such data are not otherwise available to the public and will not be disclosed except as may be required by law (see 19 U.S.C. 1677f). Such confidential information will not be published in a manner that will reveal the individual operations of your firm; however, general characterizations of numerical business proprietary information (such as discussion of trends) will be treated as confidential business information only at the request of the submitter for good cause shown.

<u>Release of information</u>.--The information provided by your firm in response to this survey, as well as any other business proprietary information submitted by your firm to the Commission in connection with this proceeding, may become subject to, and released under, the administrative protective order provisions of the Tariff Act of 1930 (19 U.S.C. § 1677f) and section 207.7 of the Commission's Rules of Practice and Procedure (19 CFR § 207.7). This means that certain lawyers and other authorized individuals may temporarily be given access to the information for use in connection with this proceeding or other import-injury proceedings conducted by the Commission on the same or similar merchandise; those individuals would be subject to severe penalties if the information were divulged to unauthorized individuals. Please also retain a copy of the final document that you submit.

<u>Contact information</u>.--Please identify the responsible individual and the manner by which Commission staff may contact that individual regarding the confidential information submitted in this survey. This may or may not be the person whose signature is at the bottom of page 1.

Firms operating more than one establishment should combine the data for all establishments into a single response.

PURCHASE INFORMATION

1. <u>Purchases and imports.</u>— Report <u>separately</u> your firm's domestic purchases and imports of active anode material.

"Purchase" – Purchase from a U.S. entity, such as a U.S. producer, a U.S. importer, or other U.S. firm

"Import" – Purchase directly from a foreign supplier, and your firm is the importer of record.

	2021	2022	2023	January- September 2024
Item		Quantity (in 1	,000 pounds)	
Purchases of active anode material produced in— United States				
China				
All other countries ¹				
Sources unknown ²				
Total purchases	0	0	0	0
Imports of active anode material from— China				
All other countries ¹				
Total imports ³	0	0	0	0

¹ Please identify these countries:

² Please indicate the firm(s) from which you purchased this merchandise:

³ If your firm imported active anode material at any time since January 1, 2021, please also complete and return a U.S. importers' questionnaire in this proceeding.

2. <u>Changes in purchasing patterns.</u>— Please indicate whether the shares of your firm's purchases of active anode material steadily increased, fluctuated but ended higher, were constant, fluctuated but ended lower, or steadily decreased since January 1, 2021 from the listed sources.

Select one box per row.

Source of purchases	Did not purchase	Steadily increased	Fluctuated up	No change	Fluctuated down	Steadily decreased	Explanation for trend
United States							
China							
All other countries							
Sources unknown							

China

explain.

3. <u>Purc</u>	Purchasing subject imports rather than domestic products.—							
		•	nuary 1, 2021, did your firm import and/or purchase imports of active anode I from China instead of purchasing U.Sproduced active anode material?					
			Yes		No			
	Source	(also	respond to parts (b) and (c))	(If "N	o," skip to next question)			
	China							
	(b) If you responded "Yes" to part (a), was the imported product priced lower than the domestic product?							
	Source		Yes		No			
	China							
(c) If you responded "Yes" to part (a), was price a primary reason for importing and purchasing subject imports rather than domestic product?								
	Source	Yes	If Yes, estimate the quantity of imports purchased and/or imported instead of domestic product since January 1, 2022 (in 1,000 pounds)	C No	If No, please indicate the reason your firm imported and/or purchased imports instead of domestic product			

If the quantity reported above exceeds the total quantity reported in Question 1, please

4.	U.S.	producers	and im	port com	petition.—
----	------	-----------	--------	----------	------------

(a)	Since January 1, 2021, in connection with a sale or offer to sell active anode material to
	your firm, did U.S. producers reduce their prices of domestically produced active anode
	material in order to compete with lower-priced imports of active anode material from
	China?

Source	Yes (also respond to question part (b))	No (If "No," skip to next question)	Don't know
China			

(b) If your firm responded "yes" to any of the above countries, please provide an estimate of the reduction in U.S. producers' prices and any additional explanations.

Source	Estimated reduction in U.S. prices (percent)	Additional explanation, including such information as timing (e.g., months/years), frequency of price reductions, or other market/competitive factors
China	%	

5.	Major purchasing factorsPlease list, in order of their importance, the main factors your firm
	considers in deciding from whom to purchase active anode material.

1.	
2.	
3.	
Please li	st any other factors that are very important in your purchase decisions:

6.	Othe	r explanations Pleas	e provide any additional comments in this box.
7.		symbol information ange and trading sym	If your firm or parent firm is publicly traded, please specify the stock pol:
8.	proce		firm or parent firm is represented by external counsel in relation to this entry of appearance, please specify the name of the law firm and the
		Law firm:	
		Lead attorney(s):	

9. **Reporting requirements.**--Please report the actual number of hours required and the cost to your firm of completing this survey for use by the Office of Management and Budget.

Hours	Dollars

Public reporting burden for this survey is estimated to average 4 hours per response, including the time for reviewing instructions, gathering data, and completing and reviewing the survey.

We welcome comments regarding the accuracy of this burden estimate, suggestions for reducing the burden, and any suggestions for improving this questionnaire. Please provide such comments to the Office of Investigations, import_injury@usitc.gov.

HOW TO FILE YOUR SURVEY RESPONSE

Please do not attempt to modify the format or permissions of the survey document. Please submit the completed survey using one of the methods noted below. If your firm is unable to complete the MS Word survey or cannot use one of the electronic methods of submission, please contact the Commission for further instructions.

• <u>Upload via Secure Drop Box.</u>— The questionnaire must be uploaded in two formats: (1) a Microsoft Word 97-2003 document; and (2) a PDF copy of the complete questionnaire with a signature on the first page. Please include any attachments at the end of the PDF (e.g., APO certification, additional comments, etc.).

Web address: https://usitc.gov/qportal Pin: ANODE Phase: Preliminary

• E-mail. — E-mail the MS Word questionnaire to <u>ravinder.ubee@usitc.gov</u>; include a PDF copy of the complete questionnaire with a signature on the first page. Submitters are strongly encouraged to encrypt nonpublic documents that are electronically transmitted to the Commission to protect your sensitive information from unauthorized disclosure. The USITC secure submission portal and the Electronic Document Information System (EDIS) use Federal Information Processing Standards (FIPS) 140-2 cryptographic algorithms to encrypt data in transit. Submitting your nonpublic documents by a means that does not use these encryption algorithms (such as by email) may subject your firm's nonpublic information to unauthorized disclosure during transmission. If you choose a non-encrypted method of electronic transmission, the Commission warns you that the risk of such possible unauthorized disclosure is assumed by you and not by the Commission.

If your firm did not purchase this product, please fill out page 1, print, sign, and submit a scanned PDF copy via the Commission's secure submission portal or email.
