General Comment

The proposed changes to Schedule A, Section 4 to report the number and amount of loans granted to officials and senior executive staff seems burdensome. This information is already included in the AIRES file that examiners review, and examiners also request a list of officials/senior executives for each examination. It seems that this item would be better suited for the exam checklist rather than the quarterly call report.

The proposed changes for Schedule D, Section 2 with regard to non-member term deposits seems to duplicate the information that is already entered in this same section.
