**GENERAL INFORMATION**

**Background.**--This proceeding was instituted in response to a petition filed on December 31, 2024, by WHEMCO-Steel Castings, Inc., Pittsburgh, PA. Countervailing and/or antidumping duties may be assessed on the subject imports as a result of these proceedings if the Commission makes an affirmative determination of injury, threat, or material retardation, and if the U.S. Department of Commerce ("Commerce") makes an affirmative determination of subsidization and/or dumping. U.S. producers of slag pots have provided the USITC with allegations about sales or revenue that they have lost due to competition from imports of slag pots from China. One or more domestic producer(s) have named your firm in such an allegation. Pertinent information to this proceeding are available at:

Questionnaires: [https://usitc.gov/reports/active\\_import\\_injury\\_questionnaires](https://usitc.gov/reports/active_import_injury_questionnaires).

Other case information: <https://ids.usitc.gov/case/8253/investigation/8684>.

**Slag pots** covered by this proceeding are slag pots with a nominal capacity of 65 cubic feet to 1200 cubic feet regardless of shape, form, or finish.

Slag pots are load bearing devices typically formed as a curved shell designed to collect molten or solid slag generated during metallurgical or chemical processes. Slag pots are metallurgical goods typically produced either using a casting process or a fabrication process and may include a ceramic refractory coating, heat treatment or various finishes in order to handle high temperature slag. Slag pots are typically designed as lifting equipment and may include attachments to enable the transport of slag pots. Attachments may include 1) a connected stand 2) pivotal mounting hooks or brackets and 3) other attachments. The merchandise covered by this investigation includes all attachments of a fully assembled slag pot, regardless of whether shipped assembled or unassembled.

Subject slag pots are included within the scope whether finished or unfinished, whether imported individually or with other subject or non-subject parts, whether assembled or unassembled, or if joined with non-subject merchandise. Finishing includes, but is not limited to, arc washing, welding, grinding, shot blasting, heat treatment, machining, and assembly of various parts.

The country of origin for subject slag pots whether fully assembled, unfinished or finished, is the country where the subject slag pot was cast or forged. Subject merchandise includes slag pots that have been further processed or further assembled. Further processing includes, but is not limited to, arc washing, welding, grinding, shot blasting, heat treatment, painting, coating, priming, machining, and assembly of various parts. The inclusion, attachment, joining, or assembly of nonsubject parts with subject merchandise either in the country of manufacture of the in-scope product or in a third country does not remove the subject slag pots from the scope.

Slag pots subject to the investigation are specified within the Harmonized Tariff Schedule of the United States (HTSUS) under subheading 7309.00.0090. The HTSUS subheading is provided for convenience and customs purposes only. The written description of the scope of the investigations is dispositive.

**Reporting of information.**-- If information is not readily available from your records, provide carefully prepared estimates.

**Confidentiality.**--The data furnished in response to this survey that reveal the individual operations of your firm will be treated as confidential by the Commission to the extent that such data are not otherwise available to the public and will not be disclosed except as may be required by law (see 19

U.S.C. 1677f). Such confidential information will not be published in a manner that will reveal the individual operations of your firm; however, general characterizations of numerical business proprietary information (such as discussion of trends) will be treated as confidential business information only at the request of the submitter for good cause shown.

**Release of information.**--The information provided by your firm in response to this survey, as well as any other business proprietary information submitted by your firm to the Commission in connection with this proceeding, may become subject to, and released under, the administrative protective order provisions of the Tariff Act of 1930 (19 U.S.C. § 1677f) and section 207.7 of the Commission's Rules of Practice and Procedure (19 CFR § 207.7). This means that certain lawyers and other authorized individuals may temporarily be given access to the information for use in connection with this proceeding or other import-injury proceedings conducted by the Commission on the same or similar merchandise; those individuals would be subject to severe penalties if the information were divulged to unauthorized individuals. Please also retain a copy of the final document that you submit.

**Contact information.**--Please identify the responsible individual and the manner by which Commission staff may contact that individual regarding the confidential information submitted in this survey. This may or may not be the person whose signature is at the bottom of page 1.
