We need to bring back humanity. Patients with severe chronic pain disease have a right to medication that enables them to function at their highest level and have quality of life. The deaths from complications of chronic pain have skyrocketed. Yet Patients are still being denied treatment do to fear of our own government. The suicide rate of these patients has also skyrocketed, yet no one is reviewing the false data and fixing it. The issue is illegal drug, that is were the high rate of overdoses comes from. Please address the illegal drugs and let patients get their effective treatments back.
