It's time for transparency. It's time to get rid of arbitrary "guidelines " that are being used as law enforcement tools. People are dying from untreated pain, going to the streets for relief and dying from illicit drugs and YOU KNOW IT! Let patients and their providers decide what is best.

Stay in your lane of infectious disease, please. You have eroded your reputation in recent years. If it is to ever rebound, you must do the right thing and admit this has gone too far.
