As. both a retired attorney (with both prosecution and defense experience) and now a disabled person in continuous severe pain. I am appalled at the level of scrutiny and difficulty I have in simply getting my prescriptions filled. At the end of every calendar year it is very difficult to even have it filled due to prohibitions this office has with the drug manufacturers! THIS NEEDS TO STOP. There is no reason I must be even more disabled due to my inability to obtain my LEGALLY PRESCRIBED medications. The month of November and December I am unable to enjoy the holidays, as I am bedridden with pain due to YOUR POLICY.
