To: mia.logan@noaa.gov, NOAA.PRA@noaa.gov

Ms. Logan and Ms Thomas:

I noticed that you were listed as the Contacts in the Federal Register for information concerning

"information collection through the Environmental Compliance Questionnaire for National Oceanic and Atmospheric Administration Federal Funding Opportunity Applicants"

I would like to comment, even though the technical date has passed, but to do so in an informed manner, I am hoping you could provide me with the information collected from the Squaxin Tribe and any subsequent NEPA action taken in regard to the 6 Million Dollar grant issued to help remove the 5th Avenue Bridge in Olympia Washington.

An article describing the award is linked below.

<https://www.theolympian.com/news/local/article288644850.html>

My present comment is that if the information provided by the Squaxins did not result in a NEPA determination of reasonably foreseeable significant impact from NOAA, the information solicited in the present form is inadequate to fairly inform the agency in a manner sufficient to comply with NOAA's responsibilities under NEPA.

Thank you for your consideration.

Please consider this also as a FOIA request for "information collected from the Squaxin Tribe and any subsequent NEPA action taken in regard to the 6 Million Dollar grant issued to help remove the 5th Avenue Bridge in Olympia Washington."

Sincerely,
Arthur West
