General Comment

this program is completely unnecessary and needs to be defunded and shut edown. the nasty people running this regulatory agency constantly dinigrate the us public in making comments so that the public gets no opportunity to have any say on what goes on in this nasty out of control ahency. defund this agency. it is not working for the best interets of the american people. it is anti american and full of crap employees who look to do nothing for their salaries. bums of the govt is what they are. fire them all. they are makig unsound wasteful decisions.
