9/14/2009	South Dakota	No changes to the survey	
	Steve Serr		
9/21/2009	South Dakota	No changes to the survey	
	Glenda Erickson		
9/23/2009	South Dakota	Registration and UOCAVA questions are time consuming;	
	Diane Olsen	other sections seem easy to answer	
9/28/2009	South Dakota	Some questions repetitive; Do not change survey	
	Pamela Petrak		
10/26/2009	MD Board of Elections	Question B19 - number of UOCAVA ballots transmitted	
	Nikki Trella	as a one-time versus automatic request. With passage	
		of the National Defense Authorization Act FY2010, this	
		question will be removed since two-cycle request will no	
		longer be required? Similarly, question B20 will be	
		removed?	
11/3/2009	IL Champaign County	Some A6 questions are hard for IL to track; A9 should	
	Mark Shelden	registrations from outside our jurisdiction be counted as	
		rejections? Regs we get that fall in this category are not	
		processed and are not rejected, but rather passed on to	
		the proper jurisdiction; A10 use of the terms removal	
		notices versus confirmation notices; A11e should read	
		two most recent general elections; B1, B2, C2, E3, F1,	
		F5 more clarity needed;	
11/5/2009	Michigan DOS	Impossible for MI to respond to detailed data requests	
	Chris Thomas	because of requirement to contact over 1,500 city/	
		township clerks. Extremely burdensome. Urge	
		simplification of the survey.	
		A6i impossible for MI to answer; A7-9 too detailed; B2, B3,	
		B8 are unclear; B14 rejections do not cover FWABs that	
		are rejected due to voter's regular ballot arriving in time.	
		C1, C2, C4, and F3 need clarification

11/6/2009	OVF	Recommend adding UOCAVA questions about	
	Claire Smith	UOCAVA registration: how many voter regs, ballot	
		requests and/or FPCAs were received? How many	
		voter regs, ballot requests and/or FPCAs were rejected?	
		Why were these rejected (list possible reasons along with	
		quantity for each item - missed deadline, eligible in district,	
		signature and/or date missing, form is incomplete	
11/6/2009	South Dakota	Minimize burden on states; do not change the survey	
	Jennifer Headlee		
11/6/2009	South Dakota	Do not change survey in an effort to reduce burden of	
	Karen Layher	data collection	
11/6/2009	South Dakota	Minimize burden on states; do not change the survey; no	
	Cindy Longbrake	additional questions should be added to the survey	
11/6/2009	South Dakota	Do not change survey in an effort to reduce burden of	
	Pamela Petrak	data collection; no additional questions to the survey	
11/6/2009	South Dakota	Compiling data is time consuming. Do not change	
	Susan Williams	the survey	
11/9/2009	Congressman Holt	Amend survey to include questions about voting	Previous letters sent to EAC
		machine performance (failure to perform) and polling	were included with his comments
		place accessibility (lack thereof)	
11/9/2009	South Dakota	No changes to the survey	
	Susan Urban		

Comment Received	Commenter	Comment	Additional Information
11/9/2009	Colorado	Include questions about election audits. Questions	Received after the comment
	Neal McBurnett	should address the extent to which practices in a	deadline
		best practices document are followed and where	
		states' audit reports are published	
11/9/2009	Verified Voting	Submitted testimony by Warren Stewart as VV's	Received after the comment
	Sean Flaherty	comments.	deadline
		VV recommends that the survey include	
		questions about the number and type of voting equipment	
		and number of poll workers (proposed survey includes	
		them and they should remain).	
		Include questions about service and maintenance of	
		voting systems. In addition to name of voting system	
		(model and vendor) also include questions about who	
		provides ongoing support for system service and	
		maintenance (including ballot layout (programming) and	
		technical support.	
		Include questions about whether UOCAVA voters used	
		the Internet, fax, email, and US mail to send ballots to	
		UOCAVA voters and to receive ballots back from voters.	
		Include questions on voting system problems (not just	
		for vote recording machines but also electronic poll books,	
		voter-card encoders or precinct control modules).	
11/9/2009	Citizens for Election	Ask for the number of votes that are counted in a manual	
	Integrity Minnesota	post-election tally of paper trail divided by the number of	
	Mark Halvorson	votes cast so that we get an idea of the extent to which	
		any manual post-election tally audit is being conducted.
