The "Defending Women from Gender Ideology Extremism and Restoring Biological Truth to the Federal Government" executive order is unconstitutional and any attempt to ban Trans individuals from changing their gender or applying for a passport is nothing more than government overreach and an encroachment on civil liberties that are protected by the United States Constitution.

All Americans have protections under the constitution, and denying passport name changes to trans individuals is against the very ideals of our country. We must continue to provide all individuals to make changes to their official documentation that most align with their gender identity.
