This comment is in regard to the "Defending Women from Gender Ideology Extremism and Restoring Biological Truth to the Federal Government" executive order. As a non-binary person who has X on all of their identification documents, having to put a conflicting sex marker on my passport will cause confusion and potentially problems when traveling. Also, why is a sex marker even needed on passports? It's completely pointless and unnecessary. Please either revert back to the previous system or remove sex from passports entirely.
