To put it simply, the changes to this form are nothing short of an attempt to pander towards the cruelty and bigotry directed at some of our most vulnerable citizens. To require the addition of a biological sex binary is discriminating towards citizens who don't identify with their gender assigned at birth. There is simply no harm in allowing someone to have a different gender marker on their passport, or a name that they feel suits them. I firmly believe that this change is restricting the rights of a citizen of the United States to express themselves, which is both against the First Amendment and goes against their fundamental rights to life, liberty, and the pursuit of happiness. I urge that this change is thrown out, and that we continue to allow this minority of citizens the grace and compassion that they deserve.
