I am deeply disappointed that the Department of State has decided to follow guidelines from Donald Trump's unconstitutional and biologically inaccurate Executive Order(s) regarding sex and gender identity. The current administrations' attempt to erase the existence of intersex and transgender people is morally reprehensible and doomed to failure, and it goes against the general consensus of a myriad of scientific research and studies. Discrimination against queer people goes against the very fabric of our constitution, against the principles on which this great country was founded. The fight for the rights of trans people is only the latest in a long line - Women's suffrage and the fight for Civil Rights in the mid 20th Century are examples from which only one conclusion can be drawn.

We are here. We are not going anywhere. We are on the right side of history.

Will you be there with us?
