It is a firm belief of the founders of this nation that every person living within our country has the rights to life, liberty, and the pursuit of happiness. It is my firm belief that by restricting who and how one is able to renew and apply for a passport, the government is restricting those rights. The restrictions that are proposed will do nothing but hurt people who are only trying to exist in a nation that they should have the right to exist in. Allowing these people to apply for and renew their passports is harming no one, and the only purpose for this bill is for the sake of cruelty and control.
