How much time, money, and energy is going to be wasted enforcing these backwards, bigoted, cruel policies? Why is the government trying to use my tax dollars to bully a minority group? Did you not learn anything in your history classes? The people behind policies like these are taught about not because they were visionaries but because they were villains. I'd rather pay to buy some trans person a ticket out of this mess of a country to somewhere safer than have a single cent of my taxes go to enforcing this type of policy.
