Good Evening, Afternoon, or Morning to whomever is reading this.

I am writing in response to the "Defending Women from Gender Ideology Extremism and Restoring Biological Truth to the Federal Government" Executive Order. Gender by its very nature is a social construct and as such is going to change as time goes on as all things do. Transgender individuals as well as Intersex individuals have always existed and no amount of attempted erasure will change that. Our language and understanding of these things has just reached a point that we as a society have the language to begin to better understand this small subsect of our collective whole. These people deserve the basic respect of being able to safely exist in a public space without censure or harassment. As such I feel that it is only proper they be allowed to identify themselves as their preferred gender on something as simple as a passport as a matter of basic decency and respect to them as a person.

Sincerely:

A concerned person of the states
