Why are y'all so obsessed with what's in my pants? Are you going to start dictating how I can dress, or the jobs I can have? Because otherwise why do you need to know what my genitals look like?

Changing my pronouns doesn't hurt anyone. Changing my body doesn't hurt anyone. We call ourselves the land of the free and then throw all our efforts into making sure everyone only gets to live one specific kind of way. Is gay sex really that icky to y'all? Grow up and get over it. Stay out of our pants.
