I strongly oppose this change to the passport renewal application. It is the result of a cruel, discriminatory, and illegal executive order. Since executive orders don't wield the force of law, anyway, you guys can just ignore it, and choose to be decent. It will also create undue hardship for citizens whose other methods of identification no longer match their gender assigned at birth, as well as all the public servants whose job it is to change, update, issue, and reissue these documents. That includes you guys. don't you want less work???
