I don't believe that we should be forced to have our sex assigned at birth printed on passports, and that in fact gender markers are entirely unnecessary except in the case of medical documents. I believe in the ideas that founded this country, that we came here to live free of oppression.

If we want to get legal about it, please refer to the case of Zzyym v. Blinken (formerly known as Zzyym v. Pompeo, Zzyym v. Tillerson, and Zzyym v. Kerry)
