Not only are gender and sex two very different things, and not only has science proven that there are more than two genders throughout the human and animal kingdoms, this issue has already been decided by the courts. These proposed forms are in violation of the injunction put on State by the U.S. District Court for the District of Colorado in the Zzyym v. Blinken case (formerly Zzyym v. Pompeo, Zzyym v. Tillerson, and Zzyym v. Kerry).

By limiting these forms in this way you are infringing on every person's right to self-identify, and ignoring scientific fact. I propose we do away with gender on passports. But if it has to be there, I want my passport to reflect my gender not my genitals.
