It has come to my attention as a voter in the United States that information is being collected based on the recent "Defending Women from Gender Ideology Extremism and Restoring Biological Truth to the Federal Government" Executive Order that is for the purpose of oppressing citizens of the united states on the basis of their gender. I believe it is important to point out that such a form is already in violation of the enjoinder put in place by the U.S. District Court for the District of Colorado in *Zzyym v. Blinken*.

Also, the Executive Order that these forms are based on is itself uncarefully worded and not legally binding for that reason. By its own wording it contradicts itself on its definitions of sex and gender, and contradicts the biological realities of many people born intersex, those born sterile and therefore unable to produce "Reproductive cells", and indeed by its own definition beginning at conception puts forth the absurd conclusion that in fact 100% of humans born within the United States are indeed female, as "at conception" biological sex of a zygote is always female. If you wish to follow this Executive Order to the letter, in fact the passports of anyone with "Male" gender markers are invalid and therefore the president's own passport would be in question. Because of the absurdity of the wording of this Executive Order, it is therefore unenforceable and must be discarded.
