Hello Department of State worker. I'm deeply concerned with recent changes to passport policy due to the so called "Defending Women from Gender Ideology Extremism and Restoring Biological Truth to the Federal Government" order. As there are more than two biological sexes and that this would create tremendous issues for transgender Americans, these policy changes work against scientific consensus and the American well-being. As these changes would endanger the lives of American citizens, limit the freedom of American citizens, and deliberately dehumanize American citizens; these policy changes run counter to life, liberty, & the pursuit of happiness. As an American with transgender friends, neighbors, & representatives, I cannot support anything that creates a lesser class of citizen for them or any other potentially vulnerable group. This executive order is not only factually wrong, it is morally wrong, and fundamentally anti-American. To whomever reads this: thank you for your time. I hope that you are able to pass this on to someone who can halt this attack on American values.
