The proposed change is discriminatory on its face against transgender people and intersex people, and does nothing to benefit cisgender people. Instead, it's harmful to the integrity of single-sex spaces by forcing transgender men and cisgender women to share women's spaces, and forcing transgender women and cisgender men to share men's spaces. It will require male TSA agents to pat down women and female TSA agents to pat down men.

And besides, EO14168 is already being challenged in court, and this document change will undoubtedly be challenged as well. Changing forms to comply with a rule that's in legal limbo and likely to be overturned is a waste of time and taxpayer money.
