Submitting a comment requesting that any changes to the passport process to disregard the proposed guidances of the "Defending Women from Gender Ideology Extremism and Restoring Biological Truth to the Federal Government" executive order. The executive order is not law and does not need to be followed. If the executive order were to be followed, it would not only target the liberties of trans citizens, but also anybody biologically intersex, and people who are infertile either via being post menopausal, elective procedures, or any other medical reason.
