As a proud American, I am against the changes asked for in the president's executive orders. There is a clear separation of church and state in the constitution, so one religion's views should not affect the laws of the government. Instead, we should rely on science, which proves there is a difference between sex and gender, and that there are more than 2 genders. Intersex people also exist and will be ignored by these orders. The overwhelming damage to trans people who may have passports that do not match their drivers' licenses or other identity documents is unacceptable.
