I am writing to object to the proposed change related to EO "Defending Women from Gender Ideology Extremism and Restoring Biological Truth to the Federal Government," which would force individuals to put down their sex assigned at birth. There are more than two genders because biologically speaking — intersex individuals DO exist — and as much as this administration would like to eradicate them, transgender people do exist. I have a good friend who is a trans woman, and forcing her to put "male" on her passport or on any legal identification document would be an affront to her dignity as well as a violation of her God-given right to life, liberty, and the pursuit of happiness. Please do the right thing here.

Sincerely,

Kristen Holmgren
