Hello,

Thank you for reading these comments. I know it must be a slog.

I oppose the changes to the passport forms in response to the E.O. I am a U. S. citizen, resident, and taxpayer who was assigned female at birth and that turned out to be my gender identity as well. However, I understand that this is not true of everyone.

Government forms need to be accessible to and usable by all, including intersex and transgender people.

Thank you

Bernadette Buck
